So what are you waiting on? Beginning your Big Brother Brasil

Bbb Twitter downloading journey today and experience all the advantages and ease that the electronic globe of publications has to supply!

REVIEW OF BIG BROTHER BRASIL BBB TWITTER

- As of mid '05, this book is a little dated and is a couple of versions behind the current (1.8.2) release of ruby. Regardless, it still covers all of the necessary basics and in a very reader friendly order. The book is said to be written assuming no prior programming experience - however such a book as this is not really an introduction to programming. It does serve as a great introduction for just about anyone with some experience with just about any recent language - such as java, vb, vb.net or c#, and especially perl or python. The writing is clear and applies well towards learning. At times it may go a little too slow for the developer with experience behind them; however they should be able to read the entire book with its exercises in much less than a

week with no problems; and be fairly productive in ruby at the end. Like most beginners books, you'll want to follow up with a more thorough book like the Dave Thomas' pickaxe or The Ruby Way - but this is more than enough to get someone started. Just keep in mind that you are only going to learn the basics - if you have several years of practice behind you, especially if you understand the difference between a dynamic language like ruby and static ones like java and c# - then you will be better off skipping this one and going with the pickaxe book (search for Dave Thomas). Otherwise this is a great intro.

- This is a great book...sadly, I just didn't like it as much as I did 30?? years ago...but that's me; not Bradbury. I've been reading a book of 100 of his best stories, and it reminded me how incredible a writer he is. I hate to say it, but I don't think there are many imaginations like his anymore....imagination is, I fear, a casualty of the push into cyber space....I also love that many of his short stories refer to other classic writers, like Edgar Allan Poe...and remind (me) to read them again.
