### REVIEW OF ACCOUNTING 11 6 MASTERY PROBLEM ANSWERS

- This book is great if anyone saw the movie and wants to read the book you won't be disappointed. Although it gets different halfway you can still see parts that the movie did put in. If you are a fan of the movie you can tell that in the book they really picked out the right actors for the movie. It is an interesting way how Russel Johnson's character (the professor) blew up in the book than he did in the movie. The interociters also can pick up brain waves. There are typos however that make it annoying. But just the fact that Raymond F. Jones' fun story is available you can surpass that. Prepare to find out what is going on out there over are heads above THIS ISLAND EARTH!

- Not only does this book answer all the questions you see in all the other reviews, but it has one important thing that none of the other B5 books has: Joe M. Straczynski's seal of approval. He wrote the forward and he states "While most of the Dell books to date have contained some elements that are considered canon, this is the very first one that is considered canonical in every small detail...[it] should be considered as authentic as any episode in the regular series." So even if you haven't read any of the other B5 books, you MUST read this one if you're a TRUE Bab-o-Phile. :) Also, this is the author's first novel. I've already instructed Amazon.com's excellent EYES server to let me know the SECOND she produces another one. She's quite good.
