REVIEW OF LA DELIVERANCE DE LA VERGE DU MECHANT

- I've read all of the Night World books, and this is my absolute favorite!!! A must read for any LJ Smith fans!!!
- This is ABSOLUTELY the Best HTML book. I got this book at the same time I got my first job as a web developer. My main job was

to layout HTML pages for companies including GE and Sherwin Williams. I found this book indispensable. This book is great for a beginner and a superb reference for an HTML guru. The tutorials are great and the appendixes are wonderful. Although, the only HTML book you will need; you will need other books to cover topics such as CSS, JavaScript, and XML. The book gives you only a brief introduction to these branches of web development. If you use or want to use HTML buy this book!
