within your reaches.

So, what are you waiting for? Beginning your analysis experience today with digital Differential Equations Nagle Solutions book downloads. With so many titles and styles to select from, the opportunities are countless. Happy analysis!

REVIEW OF DIFFERENTIAL EQUATIONS NAGLE SOLUTIONS

- It's been said by others, and I will agree. There is way to much repetition from other books. I never want to see the 'Mother's Song' again and I am very well aware of how to domesticate wild animals. But, honestly, that's not what irritated me about this book. What

bothers me is the lack of follow through. I waited and waited for a major confrontation with Brukeval, Laramar and Marona and in the end all I got was Ayla's acknowledgement that she had made enemies. Was it Madroman who was leaking the secrets of the zelandonia? No mention was made of it after Zelandoni said there was a serious problem she had to take care of. After Ayla and Jondalar's trial isolation, not much else was mentioned about the summer meeting. Jonadalar's trip back to the cave to make Ayla a dwelling could have been interesting, adventurous and touching, but it was totally glossed over. He left, he came back. I did like Ayla's relationship with Zelandoni. I also liked the side story of Lanoga and Loralia and later, Lanidar. I

would have liked to know what happened to the other children. Ayla was going to make Bologan some clothing with his help, but that part of the story was not told. Overall, if you are a fan of the series you need to read this book. But I really hope that Ms. Auel ties up the loose ends she left in this book when she does the sixth. It would be nice if the final Earth's Children book came out in a year or two, rather than 12.

- Clan of the Cave Bear is on my top 10 list of favorite books. I have read it and others in the series many times over the years, both in book form and on tape. Though the other 3 books were not as tightly written, they were entertaining and interesting. But not The Shelter of Stones. It is 700+ pages of nothing. It is a rehash of what happened in the past

with no depth or creativity. Nothing new happened and even the old stories was told in a very shallow way. All the talk in the earlier books about how Jondalar's kin felt flatheads were so abhorrent - the supposed reason for Jondalar's strong reaction in book 2, and embarrassment in book 3. They get to his home cave and his kin just say, "huh - there're human? Gee, that's interesting. Thanks for telling us. We'll have to think about it. "I suppose the next book could actually have some plot to it. But I'm not going to

hold my breath. 700+ pages and we didn't even meet anyone from the Clan. I agree with the readers that disappointment does not even describe my feelings. If you are a fan of the series, you may want to skim through it just for continuity. There is always hope that the last book will be better. But I wouldn't put it high on my list of things to read. Re-reading the other books (which did over the last year) is much more enjoyable.
