REVIEW OF INGENIERIA ECONOMICA BLANK TARQUIN SEPTIMA EDICION

• I remember having read this book in high school. I immediately fell in love with Hardy. (I was also fond of Hardy Boys at that time, so in my opinion the name Hardy acquired a special significance.) Unfortunately, though, I never liked another book by him quite so much. I've read *Tess of the d'Urbilles*, *Under the Greenwood Tree*, *Far from the Madding Crowd* (which was perhaps his second best novel, as others here have affirmed), and perhaps a few others. It is strange, or perhaps significant that I remember the exact circumstance when I was reading this book. It must have been about ten in the night. I had cleared my study desk, and unlike my common practice of lying on my stomach on

my bed to enjoy a book into the night, I sat down on the straight-backed chair at the desk to read it. Very soon, I was overwhelmed by the narrative of Mr. Hardy. My father came in to see what I was up to, saw the tears streaming down my face as I turned the pages of my book, and quietly went away. I have never before owned any story books- my parents told me to read out of libraries. But now I am 22, and have started earning some money of my own, and I'm going to start a little collection of my most beloved books, to pass on to my children, perhaps? And this is among my very best.

• This is a story about a post-Civil War pre-civil rights southern town that almost gets up the gumption to lynch a falsely accused black man. This is also the coming-of-age story of one Chick Mallison, I think his last name is, who takes the initiative to prove the accused innocent. This is a platform for Faulkner to vent some political views through Chick's uncle, a successful southern lawyer who defends the prisoner. There's nothing really new about any of these themes. Really and truly what makes this book one to be remembered is that somehow Faulkner managed to write in such a way that he captured the way time and thought bend, expand and contract around each other. It would be impossible to give you a taste of this without inserting a quote that's two pages long, but once you get caught up in his long dream-like stream-of-consciousness flows, you almost find yourself jerking back to reality along with Chick when he is moving in and out of a sleep state over his breakfast after a long night of digging up graves and eluding murderers. Faulkner also manages to capture the ambiguous emotions that we all have around the powerful events and people in our lives. No human emotion or action is ever purely black or white; in Chick's case we get to hear all of the inner voices--need for love and approval, order and security; shame, anger, pity, wonder, fear, love--really I could go on and on, but the point is that they are mixed and presented on the page in the way that our emotions are--a constant flow of thoughts and voices, sometimes linked, sometimes random, sometimes contradictory, and often below the surface of our conscious mind. In truth, I have never really read anybody else who writes like this. I read *The Sound and the Fury* in my early twenties and found it a bit daunting, but now having read *As I Lay Dying* and *Intruder in the Dust* (at the age of 34) I think I'd like to give it another read, along with the rest of his works. By the way, for those of you who are struggling with any of Faulkner's works, try picking up a literary bio that explains the order in which he wrote them, where he was in his life, and what he was experimenting with (and I don't mean drugs). I have found all of that info to be enormously helpful and a spur to further reading. Good luck!
