REVIEW OF LINED PAPER PRINTABLE FINAL DRAFT

- As a freshman in high school, I chose to read, "The Heart is a Lonely Hunter" for a book report. I can understand how other high school students

may have found this novel boring. However, it is not necessarily meant to be read by the average high school student. It is meant to be enjoyed by those who read in search of a deeper understanding. Carson McCullers wrote a thought-provoking novel of loneliness and depression that will stay with me throughout the rest my life.

- This book was on many high school reading lists and I decided to re-read it 40 years after my first time. It's still a great read, evocative of an interesting period, like stepping backwards in time. The message on the other hand is timeless, reminding those who think we live in a difficult period that all times are

challenging. Readers sensitive to racial stereotyping would do well to remember that, when this book was written inclusion of African-Americans in a novel, much less one who is a doctor, was very unusual. Well worth the time.
