REVIEW OF MICROSOFT OFFICE 365 ADMINISTRATION INSIDE OUT

- The first books of Simmons that I read was the Hyperion series, I never knew he had horror background. As a parent it is difficult to read about the death of the baby, but the intensity is remarkable. I definitely recommend this for anyone who enjoys horror or scifi.
- I loved this book, and not only because I prefer a clean, classic style over a cluttered look anyday. The author has an obvious eye for color coordination and combinations that are a step above most scrappers. Her work inspires me to focus on what really matters: content. I am often distracted, even dismayed, by overuse of embellishments in many popular designs these day. It's refreshing to see someone focusing on what's important and doing it well. If you like to scrapbook, but want to skip all the outlandish embellishments, this is the book for you. Again, I absolutely loved it!
