So, what are you waiting for? Beginning your analysis adventure today with digital Amelia La Scandaleuse book downloads. With so many titles and genres to choose from, the possibilities are unlimited. Pleased reading!

REVIEW OF AMELIA LA SCANDALEUSE

- i read this book because amazon recommended this book since i reviewed linda francis lee's sexy trilogy..in the romance department, it's a first class...however, compared to lee, this book lacks the element of surprise, the conflict in this novel wasn't really that suspicious but all and all it's a good read..i love marty and her intelligence, how she doesn't want to be judged by her physical appearancei also love nate's transformation.. it's a breath of fresh air to read something like this..

- This definitely isn't your average, run-of-the-mill fantasy novel. In fact, if you tilt your head just so, it can legitimately look an awful lot like science fiction.Which makes sense, actually, 'cause Charles Stross has made his reputation as a hard sci-fi author, and he brings that same kind of intellectual thoroughness and detailed invention to "The Family Trade." So when journalist Miriam Beckstein gets unexpectedly transported to a seriously medieval alternate Earth, she's no fairy-tale princess searching for Prince Right, but a long-lost daughter of an enormous family that's equal parts Medici and Corleone. And many members of that family immediately make it clear that they'd have preferred she stay long-lost. Cue "Speak Softly Love."It does take about a third of the book for the premise proper to kick in, but that's only a problem if you read the description on the back of the book and need to get there NOW NOW NOW. The setup Stross does give us is interesting, and close enough in feel to the "main" plot that I'm sure it will come back into play at some point.That's one of the numerous reasons this novel was so enjoyable: nothing is wasted. It seems that every seemingly throwaway detail becomes important later on. All the cutthroat politics and intrigue lend an air of paranoia and tension that keeps the suspense (and manic page-turning) high, but to his credit Stross never lets it become overwhelming or stifling. All the elements are well-balanced, with the possible caveat that Miriam herself is a relatively stock-standard heroine of the kind that's common in genre fiction these days -- tough, smart, cynical, and career-oriented, with a jaundiced view of romance and a distinct lack of sentimentality. I'm not complaining, she's a perfectly appropriate protagonist for this very idea- and plot-oriented story.The (occasionally self-conscious) defiance of convention and the cold-blooded high stakes make this a fresh and madly enjoyable book. Leave your fantasy-novel expectations at the door and you probably won't go wrong with The Family Trade. I'd recommend it to fans of Zelazny's "Amber" series and George R.R. Martin's "A Song of Ice and Fire," or to tough-minded science-fiction readers who may think there's no fantasy novels they could enjoy. This might change their mind.
