REVIEW OF 1999 TOYOTA

HARRIER MANUAL

• Get Me Out of Here is a brilliantly written book about Rachel Reiland's struggles with Borderline Personality Disorder. Reiland does a great job of verbally expressing the pain and anger that this disorder caused her, as well as helping to explain why she developed the disorder (her childhood experiences). Some may be shocked by the intensity of her anger and outbursts, but one must keep in mind that these outbursts are just a sign of her problems with BPD. She was lucky that she had an understanding husband and a very patient psychiatrist. A lot of patients with this disorder aren't as lucky

as she and end up being dumped by either their family or their therapist or both.

• It is so difficult to deal with people who are sick, when I am sick. It is great to read about someone who finds a way to discover their illness, especially when part of the illness is to blame other, scream at other, throw things at others. When there is complete denial about one's participation in illness and wellness, it is most difficult. This person's story of stumbling into recovery and the help of so many people is nice to read, much better than a fiction novel and there are bits of gems that help me to this day. I am grateful to have stumbled onto this book and reading it was a pleasure and enlightening. Now I AM

ALL BETTER, and it ELSE Fault (Just
really is EVERYONE kidding).
