## REVIEW OF ANSWERS TO THE NOMENCLATURE REVIEW SHEET

- This is the BEST Java certification book I've bought! I'm used to studying Java certification books that need a GAZILLION LINES of text just to explain one small topic! But with this book all you have to do is look at the pictures and read a few lines of text... and bingo you get it. Trust me, I passed the SCBCD exam with a score of 97% because of this book!

- Author rambles on about various old designs and the philosophies of the designers/builders, interspersing a few fuzzy B&W pictures and snippets of hull profiles. Might be interesting to the history buff, but if you want clear, relevant information on how to build a wooden boat... this book isn't for you. There are many others to choose from - I'd recommend Buehler's Backyard Boat Building and Gerr's Strength of Boats as two helpful books I've read so far.
