REVIEW OF CHEMISTRY INVESTIGATORY PROJECTS CLASS 12

- I did not actually READ this book. I listened to it on Cassette, but even so this book had me hanging till the end! It can be a little boring in the beginning and you have to be able to understand what is happening in the characters world. This book gave us a little insight of what it may be like in the future. I found parts of this book a little disturbing and it sent me wondering about our world. If you read this book, be ready to ask questions and also give yourself time to figure out some what is happening. let the facts sink in. This book is a little complex, but I still loved it. [the cassette was VERY good so if you do not like to read try listening to this book. I had seen this book at bookstores before but never took much interest. Now that i listened to it i changed my mind.]

- The Giver is a book you would have to read. The book keeps you thinking on whats going to happen next. This book is the best of the best books i have ever read. Their couldn't be a better book then the Giver. The best part about the book is when Jonas starts receiving memories and he finally starts to see color. Jonas is a brave boy. Trying to save the town from sameness. And in the end he had succeeded
