—Laura Dave, New
York Times bestselling

Thing He Told Me*

Told from alternating
perspectives, an
evocative and riveting
novel about the

lifelong bond between
two women, one Black
and one white, whose
friendship is indelibly

altered by a tragic
event—a powerful and
poignant exploration of

race in America today
and its devastating
impact on ordinary
lives. Jen and Riley
have been best friends

since kindergarten. As
adults, they remain as
close as sisters, though
their lives have taken
different directions. Jen
married young, and
after years of trying, is
finally pregnant. Riley
pursued her childhood
dream of becoming a
television journalist
and is poised to
become one of the first
Black female anchors
of the top news
channel in their
hometown of
Philadelphia. But the
deep bond they share
is severely tested when
Jen’s husband, a city
police officer, is
involved in the
shooting of an
unarmed Black
teenager. Six months
pregnant, Jen is in
freefall as her future,
her husband’s
freedom, and her
friendship with Riley
are thrown into

uncertainty. Covering this career-making story, Riley wrestles with the implications of this tragic incident for her Black community, her ambitions, and her relationship with her lifelong friend. Like Tayari Jones's *An American Marriage* and Jodi Picoult's *Small Great Things, We Are Not Like Them* explores complex questions of race and how they pervade and shape our most intimate spaces in a deeply divided world. But at its heart, it's a story of enduring friendship—a love that defies the odds even as it faces its most difficult challenges.

Since the beginning of the twenty-first century, major Anglophone authors have flocked to a literary form once considered lowbrow 'genre fiction': the post-apocalyptic novel. Calling on her broad knowledge of the history of apocalyptic literature, Hicks examines the most influential post-apocalyptic novels written since the beginning of the new millennium, including works by Margaret Atwood, David Mitchell, Cormac McCarthy, Jeanette Winterson, Colson Whitehead, and Paolo Bacigalupi. Situating her careful readings in relationship to the scholarship of a

wide range of historians, theorists, and literary critics, she argues that these texts use the post-apocalyptic form to reevaluate modernity in the context of the new century's political, economic, and ecological challenges. In the immediate wake of disaster, the characters in these novels desperately scavenge the scraps of the modern world. But what happens to modernity beyond these first moments of salvage? In a period when postmodernism no longer defines cultural production, Hicks convincingly demonstrates that these writers employ conventions of post-apocalyptic genre fiction to reengage with key features of modernity, from

historical thinking and the institution of nationhood to rationality and the practices of literacy itself.

A basic tenet of Families, Schools, & Communities: Building Partnerships for Educating Children, fourth edition, is that schools will always be a primary venue for educating the young child, and educators must be in the forefront of any endeavor to bring about change. However, the authors stress that to accomplish the tasks at hand, all school districts must develop vibrant partnerships--uniting parents and community members with teachers in

educating tomorrow's citizens. Schools are where the action will bloom, but respectful collaboration is the key to success.

with startling vitality. As the children fall in lust and love, grapple with angst and battle the tides of New South politics, Coster's writing shines"—New York Times Book Review From the author of *Halsey Street*, a sweeping novel of legacy, identity, the American family—and the ways that race affects even our most intimate relationships. A community in the Piedmont of North Carolina rises in outrage as a county initiative draws students from the largely Black east side of town into predominantly white high schools on the west. For two students, Gee and Noelle, the integration sets off a chain of events that will tie their two

families together in unexpected ways over the next twenty years. On one side of the integration debate is Jade, Gee's steely, ambitious mother. In the aftermath of a harrowing loss, she is determined to give her son the tools he'll need to survive in America as a sensitive, anxious, young Black man. On the other side is Noelle's headstrong mother, Lacey May, a white woman who refuses to see her half-Latina daughters as anything but white. She strives to protect them as she couldn't protect herself from the influence of their charming but unreliable father, Robbie. When Gee and Noelle join the school play meant to bridge the divide between new and old students,

their paths collide, and their two seemingly disconnected families begin to form deeply knotted, messy ties that will shape the trajectory of their adult lives. And their mothers—each determined to see her child inherit a better life—will make choices that will haunt them for decades to come. As love is built and lost, and the past never too far behind, *What's Mine and Yours* is an expansive, vibrant tapestry that moves between the years, from the foothills of North Carolina, to Atlanta, Los Angeles, and Paris. It explores the unique organism that is every family: what breaks them apart and how they come back together.

For the average person, genetic testing has two very different faces. The rise of genetic testing is often promoted as the democratization of genetics by enabling individuals to gain insights into their unique makeup. At the same time, many have raised concerns that genetic testing and sequencing reveal intensely personal and private information. As these technologies become increasingly available as consumer products, the ethical, legal, and regulatory challenges presented by genomics are ever looming. Assembling multidisciplinary experts, this volume evaluates the different models used to deliver consumer genetics and considers a number of

key questions: How should we mediate privacy and other ethical concerns around genetic databases? Does aggregating data from genetic testing turn people into products by commercializing their data? How might this data reduce or exacerbate existing healthcare disparities? Contributing authors also provide guidance on protecting consumer privacy and safety while promoting innovation.

"A modern-day *Crucible*....Beneath the surface of a suburban utopia, madness

lurks.” —Liv Constantine, bestselling author of *The Last Mrs. Parrish* “Sarah Langan is a phenomenal talent with a wicked sense of wry humor. *Good Neighbors* knocked me out. Like Shirley Jackson, Langan’s work blends a bleak streak with an underlying sense of the humane that wrung my heart.” —Victor LaValle, author of *The Changeling* Celeste Ng’s enthralling dissection of suburbia meets Shirley Jackson’s creeping dread in this propulsive literary noir, when a sudden tragedy exposes the depths of deception and damage in a Long Island suburb—pitting neighbor against neighbor and putting one family in terrible danger. Welcome to

Maple Street, a picture-perfect slice of suburban Long Island, its residents bound by their children, their work, and their illusion of safety in a rapidly changing world. Arlo Wilde, a gruff has-been rock star who’s got nothing to show for his fame but track marks, is always two steps behind the other dads. His wife, beautiful ex-pageant queen Gertie, feels socially ostracized and adrift. Spunky preteen Julie curses like a sailor and her kid brother Larry is called “Robot Boy” by the kids on the block. Their next-door neighbor and Maple Street’s Queen Bee, Rhea Schroeder—a lonely community college professor repressing her own dark past—welcomes Gertie and family into

the fold. Then, during one spritzer-fueled summer evening, the new best friends share too much, too soon. As tensions mount, a sinkhole opens in a nearby park, and Rhea's daughter Shelly falls inside. The search for Shelly brings a shocking accusation against the Wildes that spins out of control. Suddenly, it is one mom's word against the other's in a court of public opinion that can end only in blood. A riveting and ruthless portrayal of American suburbia, *Good Neighbors* excavates the perils and betrayals of motherhood and friendships and the dangerous clash between social hierarchy, childhood trauma, and fear.

REVIEW OF EDUCATING NITA AND OTHER TWIST IN THE TALE SHORT STORIES DAILY DELLA BOOK 7

- This book professes to be for all people, but is in fact, just for the devoutly religious. I could not finish it because it was so faith based, it made me sick to my stomach. Maybe some people can just give over control of their lives to God, but I cannot. I don't think that the reason for anger is our sins, as the previous reviewer has written, but I do think this book is

deceptive. Nowhere on the cover does it mention that this book will try to get you to give your anger over to God and let him take care of you, but that is exactly what this book tells you. It is a total waste of money.

- I bought this book back in 1991 when it was just published, and I was pregnant with twins. My twins are now 9 years old, and I have not seen a book since then that is as informative and emotionally holistic as Elizabeth Noble's HAVING TWINS. I followed her advice for weight gain and protein intake as well as whatever other advice I was able to accomodate. My twins were born 1 week

AFTER their due date and 7 lbs 2oz and 7 lbs 4 oz. I guess you could say it really worked!! I felt the chapter on the death of a twin was completely appropriate. I appreciated being able to talk about that possibility and make plans for "what if." The chapter is tastefully written with deep respect for the reader. I found it extremely moving and useful. I am just about to buy this book and give it to a friend of mine who is pregnant with triplets - super twins. If I had been able to find a better book, I would have bought it, but the writing and advice in Elizabeth Noble's book is as good today as it was 9 years ago when I bought it for myself.
