REVIEW OF TIER 2 INTERVENTION MATH 4TH GRADE

- Like many of the reviews here, I feel the author blew it big time in the end. 8/10 of this book is very good, very entertaining and leading up to something big. But then...it happens...(spoilers) the author puts his political ideas (pro-abortion, pro-homosexuality, etc.) into the mouth of the Virgin Mary. I have little problem with the celibacy issue and female priest issue that he also advocates, but even that does not allow this book to wrap up on a positive note. A great book with a cartoon ending, that ultimately means it is a not so great book. If you like Vatican intrigue read 'Angels and Demons' or an actual history book....leave this one alone.

- James Alan Gardner is one of those authors that likes to get right to the meat of things. He gives ample descriptions of the characters and their surroundings, but doesn't bore you to death with minute details that have little bearing on the story as a whole. Festina Ramos is one of the most original and entertaining protagonists ever to be put to paper. Even without 4 chapters of back story her subtle intricacies and social shortcomings are clear and believable. The character of Oar is one of the most hilarious and original ideas to grace a Sci-Fi novel since the heyday of RAH(Robert Heinlein). I read this book at the behest of a good friend and was hooked on Gardner ever since. While his stories lack the infusion of science fact that are the trademarks of true masters of sci-fi his debut novel is entertaining and memorable.
