Interest in filter theory and design has been growing with the telecommunications industry since the late nineteenth century. Now that telecommunications has become so critical to industry, filter research has assumed even greater importance at companies and academic institutions around the world. The CRC Handbook of Electrical Filters fills in the gaps for engineers and scientists who need a basic introduction to the subject. Unlike the currently available textbooks, which are filled with detailed, highly technical analysis geared to the specialist, this practical guide provides useful information for the non-specialist about the various types of filters, their design, and applications. The handbook covers approximation theory and methods and introduces CAD packages that perform approximation and synthesis for both analog and digital filters. Also included are design methods for LCR, active-RC, digital, mechanical, and switched capacitor (SC) filters. A thorough survey of current design trends rounds out this complete assessment of a key field of study.

'At least love yourself before loving others' I know the title is much known to readers, but we disregard the lessons we know much in our lives. When we are born and commence our life, we encounter diverse people with different attributes to achieve our purpose in life. Some teach us lessons while some remains with us, but this is not the way we should live our lives. We think we are candid and the finest curtain in front of the window, but life doesn't work like that. Most of the people waste half of their lives chasing hoax dreams, pretending to be theirs. If you don't know who you are then, you will never be able to know what you will become. 'We occupy many unconscious thoughts in our mind. #### REVIEW OF ANNAPURNA DAS MICROWAVE ENGINEERING

- Hot Spell too bought this anthology for the continuation of the Breeds.The Breed Next Door: Tarek

was a breed. Lyra was his neighbor. At first he did things in his yard that just got on Lyra's nerves. But he could not stay away from the fresh smell of coffee and baked goods. He didn't eat fresh things like that but loved them. The council were always looking for breeds. Lyra was just one unlucky neighbor who got involved with one. After an attack, a break-in on her home and many more things, Tarek took it upon himself to protect her and eventually love/mate her. What he didn't

expect was to fight her family. A lot of sex scenes makes puts a "HOT SPELL" on your body. This anthology was a great addition to the series of Breeds and will continue to read on. I have not read the other anthologies but plan to.

- The Elements of Style Illustrated by William Strunk Jr. is a welcomed edition to my desk. The artwork gives the otherwise dry information some flare. I am enjoying it.
