An honest, unflinching self-portrait of the basketball legend whose classy public image as a superstar and a gentleman masked his personal failings and painful losses, which he describes here--from his own point of view--for the very first time. For most of his life, Julius Erving has been two men in one. There is Julius, the bright, inquisitive son of a Long Island domestic worker who has always wanted to be respected for more than just his athletic ability, and there is Dr. J, the cool, acrobatic showman whose

flamboyant dunks sent him to the Hall of Fame and turned the act of jamming a basketball through a hoop into an art form. In many ways, Erving's life has been about the push and pull of Julius and The Doctor. It is Dr. J who has stories to tell of the wild days and nights of the ABA in the 1970s, and of being the seminal figure who transformed basketball from an earthbound and rigid game into the creative, free-flowing aerial display it is today. He has a long list of signature plays - he's famous for winning the first dunk contest in 1976 with a jam on which he lifted off from the foul line, and he made a miraculous layup against the Lakers on which he soared behind the backboard before reaching back in to flip the ball in on the other side, with one hand. He inspired a generation of dunkers, including Michael Jordan, to express their improvisational talents. But Julius wasn't always as graceful and in control as Dr. J. Erving had a pristine image throughout his career and early retirement, but he was far from a perfect man. Here he gives detailed accounts of some of the personal problems he faced -- or created -- behind the scenes, including the adulterous affair with sports writer Samantha Stephenson, which led to the birth of his daughter, professional tennis player Alexandra Stephenson. Though his marriage survived that infidelity, the death of Erving's 20-year-old son Cory in 2000 in a tragic accident proved too much for the union to bear. Erving paints a raw, heartbreaking picture of the dissolution of his marriage, as his wife Turquoise began to blame him for his refusal to be paralyzed by grief for as long as she was. Their intense arguments came to a head when Erving stepped out of the shower one day to find his wife holding a lamp in one hand

and a vase in the other, ready for a physical confrontation. "I knew somebody was going to get hurt, and it wasn't going to be me," he says. He packed a suitcase and he and Turquoise never lived under the same roof again. Erving's story is a tale of the nearly perfect player and the imperfect man, and how he has come to terms with both of them. It will appeal to readers on a sports level and on a human one.

The Industrial Revolution began in America in Pawtucket, Rhode Island at the Slater Mill in 1793 where water power was first harnessed for factory work , and where Sam Patch went to work as a child early in the 19th Century. Very little is known of the real man, except that he began leaping from the roof of the mill into the Blackstone River and after that there was no stopping him as he jumped from ships' masts, bridges, and over cataracts, including Niagara Falls. This novel places him at a time of early American expansion to the West, when the Erie Canal first opened, and imagines his life in the mills, his heroic dreams of wealth and fame, his love for a Native American woman, and his inexorable rush to an early and spectacular death.

First published in 1936, One Thousand Ways to Make \$1000 is the long out-of-

print book that Warren Buffett's biographers credit with shaping the legendary investor's business acumen and giving him his trademark appreciation of compound interest. After pulling a copy of *One Thousand Ways* off a library shelf at age eleven and devouring F.C. Minaker's plucky and practical business advice, Buffett declared that he would be a millionaire by the time he was 35. Written in the immediate, conversational style of Dale Carnegie's *How to Win Friends and Influence People*, this book is full of inventive ideas on how to make money through excellent salesmanship, hard work, and resourcefulness. While some of the ideas may seem quaint today—goat dairying, manufacturing motor-driven chairs, and renting out billiard tables to local establishments are among the money-making ideas presented—the underlying fundamentals of business explained in these pages remain as solid as they were over seventy years ago. Covering a wide spectrum of topics including investing, marketing, merchandising, sales, customer relations, and raising money for charity, *One Thousand Ways to Make \$1000* is both a durable, classic business book and a fascinating portrait of determined entrepreneurship in Depression-era America. Every effort has been made to reproduce the content exactly as it was originally presented.

REVIEW OF 2008 HOLDEN CAPTIVA WORKSHOP MANUAL

- I was completely entranced and delighted by this book, and disappointed by the reader reviews of it. Hilary Mantel's style is spare - nothing more than the strange essence of her story. There is no spoon-feeding here, and thus, is probably not for mainstream tastes. But it's great, quirky transportation to a truly other time and place. Oh yes, and fine good humor with the pathos! Was really sorry it ended so quickly.

- I never thought I would say this, but this makes 'The Tommyknockers' look like a really excellent book... this is not up to par with King's recent offerings such as 'Bag of Bones' and 'Hearts in Atlantis.' King goes for the the gross-out in this book, and leaves the reader cringing with graphic images of various bodily functions. I am a big King fan, but I cannot in good conscience recommend this book.
