REVIEW OF LAW FOR BUSINESS BARNES 11TH EDITION

- This was one of the books I've been meaning to read for a long time, and when I finally began reading it, I was utterly engrossed in the story. With the movie and the TV miniseries both available, it's superfluous to state the plot, so. And the story of a young boy becoming a hero isn't new, but the vivid geographies of Dune and the subtle complexities of life on Dune and in the Imperium are fascinating, and all make this a science fiction masterwork. It's got something for everyone: political intrigue, warfare, romance, evil vs good,

spirituality. But it's definitely the Fremen and the planet Arrakis (Dune) that cativate me. I'm certainly going to read the rest of this series.

- behold the mighty universe of dune! Its so perfect and flawless and oh so great and mighty! Not really, this novel is a snoozer, Frank Herbert always wants you to guess, so much has happened, great cities have been built, Paul rules the entire universe, the book does not really go into any of this, the follow up to the incredibly gripping DUNE is pretty dull. Its very predictable in some parts and in those parts it never follows up on it and acts like it never happened. The Dune universe is still

shrouded in mystery, the book does not go into as much detail as you'd like it too. It seems all the characters do is sit around and talk and talk and talk about things you could have already guessed. Duncan Idaho's return is great and now you finally get to the know the character and Paul's exile into the desert forever changing his seeing into the future curse is a fresh breath of air into the Dune universe. Nothing much happens in this book but its a great opening for Children of Dune which is probably the greatest Dune book ever. Buy them all, its worth owning every single book, this is the weakest one but it gets better and better.
