REVIEW OF JAVA INTERVIEW QUESTIONS AND ANSWERS

- When I bought this, I was looking for something to fill my fantasy void (especially in Audio CDs). The book was outstanding. Yes, its wrapped into the whole Tolkien genera, but it does a nice job of having its own style. Highly recommend the Audio CDs. The narrator was not as good as Jim Dale, or some others, but nonetheless does a great job.

- Ok it was pretty derivative, although I admit I never clued in on the Star Wars similarities until I read some reviews. And the writing was pretty pedestrian. But I did enjoy it and that has to count for something. A good introduction to the genre for young readers? yeah I think so.
