Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

WALNECK'S CLASSIC CYCLE TRADER, FEBRUARY 1995
Motorbooks

In 1985 Suzuki brought the technology from its championship-winning Grand Prix motorcycles to the street in the form of the groundbreaking GSX-R series. For decades the Japanese manufacturers had built sporting motorcycles that were all motor and very little else. For the complete package-bikes that handled as well on a racetrack as they handled in a straight-line drag race-riders had to purchase ultra expensive, ultra exotic machinery from European manufacturers. In one lightning strike Suzuki changed that. Suzuki GSX-R tells the complete story of these remarkable bikes.

REVIEW OF 2000 SUZUKI KATANA 600 OWNERS MANUAL

- An interesting look into the mind of the mother of social work. Jane Addams integrity and character show through in her writings. The reader comes away with a good feel for who this significant figure was.

- I have a copy of the older version of this study. I like the way the book is laid out chapter to chapter. 1. It starts with a question to consider. 2. Then it gives text to read. (It's nice to have it in front of you). 3. Then it asks questions based on the text. An added bonus is the explanation of words in the text to the side. It is like having an exhaustive word study included. I would recommend this study to any believer or unbeliever.
