The unique storytelling design, relatable characters, and plot twists make it a worthwhile addition to your bookshelf. So, if you're seeking an exciting read, Configuring Static Routing Cisco is certainly worth taking into consideration.

REVIEW OF CONFIGURING STATIC ROUTING CISCO

• I'll begin by saying that I wasn't entirely convinced that I was going to like this book when I first started reading it. In fact, I was downright sure that I wasn't going to be able to relate to the main character anymore than I could relate to the sea worthy Dolphin. I was also sure that the storyline was going to be drab and moralistic because it was published in '58. I was very pleasantly surprised however when I found myself eagerly turning pages after the first few chapters. Despite the slow start I was very much enthralled by the storyline and put on perpetual edge by the constant predicaments of the main character, Kit. There were some very dry parts of the book that I'm surprised I made it through, but then there were those one or two moments when I was actually drawing up on the couch in suspense thinking to myself "If what I think is going to happen happens I'll pass out!" Towards the end I was even starting to tear up in frustration due to the unfairness in which the main character is treated by the

townspeople. That's how emotional I can get over books, people. It's pretty absurd. The biggest surprise came when I realized near the end of the book that I could relate to this 16 year old royalist girl rather well. In fact... I found that I could completely understand her situation as a spunky foreigner in the midst of a very plain and strict group of strangers. At first I was very keen on despising the puritan characters that surrounded Kit, choosing to focus very much on the fact that Kit seemed constantly oppressed by the drab, colorless culture. After putting the book down, however, I began to realize that there was no "This is better than that" or "that is better than this". In fact it came very much down to "To each-his own". At first when I believed that the author was attempting to cast the puritan lifestyle of Kit's family in a negative light I couldn't help but clamor on about how unfortunate the main character was to be in her situation. However, I began to theorize that the author was very cleverly pointing out to the reader their own judgmental attitude. Just as with Kit, the reader goes from being completely appalled at the main character's surroundings and then slowly

they come to realize there's strength and beauty in it (even if it's not the favorite of the reader). Anyway, I could really go on about it all day, but I'll end the review by telling you all that I was pleasantly surprised by the captivating story of a young woman discovering new perspectives and finding new ways to know herself and others.

- I read this book as a 6th grader over 30 years ago. The lesson I learned from it is not to prejudge people or assume that the gossip of the day is true. That is a lesson that has stuck by me through the years. Now I am ordering a copy for my youngest daughter to read for school in the hope she will also see the valuable lessons taught in this story. Have to laugh. Got this for my daughter to read for a school book report. However, the principal of this private Christian school won't allow her to read it. I'm sure the title has much to do with that decision. The irony of it all...
