The definitive, bestselling book on the origins of nationalism, and the processes that have shaped it. *Imagined Communities*, Benedict Anderson's

brilliant book on nationalism, forged a new field of study when it first appeared in 1983. Since then it has sold over a quarter of a million copies and is widely considered the most important book on the subject. In this greatly anticipated revised edition, Anderson updates and elaborates on the core question: what makes people live and die for nations, as well as hate and kill in their name? Anderson examines the creation and global spread of the 'imagined communities' of nationality, and explores the processes that created these communities: the territorialization of religious faiths, the decline of antique kinship, the interaction between capitalism and print, the development of secular languages-of-state, and changing conceptions of time and space.

He shows how an originary nationalism born in the Americas was adopted by popular movements in Europe, by imperialist powers, and by the movements of anti-imperialist resistance in Asia and Africa. In a new afterword, Anderson examines the extraordinary influence of *Imagined Communities*, and the book's international publication and reception, from the end of the Cold War era to the present day.

Evidence law is meant to facilitate trials that are fair, accurate, and efficient, and that encourage and protect important societal values and relationships. In pursuit of these often-conflicting goals, common law judges and modern drafting

committees have had to perform as amateur applied psychologists. Their task has required them to employ what they think they know about the ability and motivations of witnesses to perceive, store, and retrieve information; about the effects of the litigation process on testimony and other evidence; and about our capacity to comprehend and evaluate evidence. These are the same phenomena that cognitive and social psychologists systematically study. The rules of evidence have evolved to restrain lawyers from using the most robust weapons of influence, and to direct judges to exclude certain categories of information, limit it, or instruct juries on how to think about it. Evidence law regulates the form of questions lawyers may ask, filters expert

testimony, requires witnesses to take oaths, and aims to give lawyers and factfinders the tools they need to assess witnesses' reliability. But without a thorough grounding in psychology, is the "common sense" of the rulemakers as they create these rules always, or even usually, correct? And when it is not, how can the rules be fixed? Addressed to those in both law and psychology, *The Psychological Foundations of Evidence Law* draws on the best current psychological research-based knowledge to identify and evaluate the choices implicit in the rules of evidence, and to suggest alternatives that psychology reveals as better for accomplishing the law's goals.

## REVIEW OF WHAT IS PSYCHOLOGY FOUNDATIONS APPLICATIONS AND INTEGRATION

- The quintessential story of the years between the wars, full of rich detail, emotional understatement, a terrific story, a bitter-sweet romance. I'm a writer myself, and I copy memorable bits of the writing of others (especially classic authors) into journals. I listened to this book while driving CA Route 1 along the coast and kept having to pull into a turnout to write stuff down. After that trip, I bought a small purse-sized tape recorder! This book is lush and gorgeous, like a bouquet of orchids.
- Reading Safekeeping: Some True

Stories From A Life, a memoir by Abigail Thomas, is much like being in conversation with a trusted friend - defenses aren't necessary, smiles abound, tears flow unashamedly. The author, who established her literary mettle with three previous novels, most memorable for me, Herb's Pajamas (1998), writes close to the bone and straight from the heart as she reveals her life in a series of affecting vignettes. All of these engagingly candid sketches are short, some as brief as a paragraph. Yet, brevity adds to their luster. Ms. Thomas's life was partially formed by the 1950's, a time when love was defined to her adolescent mind by parents who still closed their eyes when they kissed, and she thought 'We might all live happily ever after if only I could find the right

man.' But she is no longer the girl who sang 'Hey Jude' everywhere as 'her prayer, her manifesto,' she is now thrice wed, the mother of four and grandmother of six. Recalling her marriage at the age of eighteen Ms. Thomas notes, 'We were children, not meant to be married, but we did make beautiful babies.' A decade later, with three youngsters in tow, she ran away from her husband to live in the basement of her parents' New York City home. It was some two years before she married again, this time to a bachelor of forty-six, a man who 'thought it gave a woman the upper hand if you told her you loved her.' He, the man with whom she spent thirty years and had one child, is at the center of much of Ms. Thomas's memoir as she delicately traces the arc

of their relationship from love to rancor and back to love again. There was acrimony before and after their divorce. She does not remember when they became friends again, but writes of him, 'Now that nothing was expected of you, you were free to give.' She, too, gave as she cared for him during his final illness. To this day, it seems, she misses him, saying, 'It is so hard to comprehend gone.' Safekeeping is studded with conversations between Ms. Thomas and her sister. At times the author is goaded into being more precise in her recollections. At other times, the sisters laugh, remembering their mother who 'didn't exactly spend her days in a red-checked apron plying us with little goodies,' but made sure they knew 'where Ovid was banished.' A poignant

sister-to-sister encounter is a telephone conversation which ends in an argument. They both hang up, then immediately try to call each other back. 'Once upon a time anger was the final destination, but not now,' Ms. Thomas observes. 'Because we are older now, and we know what we want.' At one point, following the break-up of her second marriage,

Ms. Thomas despaired of being able to find a job because she didn't know how to do anything but fall in love. Not so. Most definitely not so. She knows what is treasure and what is dross; what to keep and what to discard. Today she teaches writing at New York City's New School. With Safekeeping, she teaches life.- Gail Cooke
