REVIEWS**

*On Being Human* University of Michigan  
Press

The end of the world is near for Grace Hwang. In her quest to find the missing part of her soul, Grace is led onto a dark journey wrought with endless peril and life-changing secrets. There are countless Demons after her, the ones closest to her are not who they appear to be, and in the midst of all this danger, Grace soon realizes that the fable of lost items cast down by a Fallen Angel eons ago may have a greater impact on her life than she can ever imagine. With her veil set to lift on her 21st birthday, Grace

is in a race against time. Will she be able to find the one who stole her soul before it's too late . . . or will she discover that the stolen piece of her soul is simply the beginning of a very deadly prophecy? There is a secret to Grace's existence that will plague all of creation . . . and once she unearths it, it will only be a matter of time before a sea of blood consumes the world and the next great evil is set free.

Rhodanthe, Or, The Rose in the Garden of the Soul's Delight SUNY Press

Since its publication in 1842, *Dead Souls* has been celebrated as a supremely realistic portrait of provincial Russian life and as a splendidly exaggerated tale; as a paean to the Russian spirit and as a remorseless satire of imperial Russian venality, vulgarity, and pomp. As Gogol's

wily antihero, Chichikov, combs the back country wheeling and dealing for "dead souls"--deceased serfs who still represent money to anyone sharp enough to trade in them--we are introduced to a Dickensian cast of peasants, landowners, and conniving petty officials, few of whom can resist the seductive illogic of Chichikov's proposition.

**Out with the BAD IN with the GOOD:  
A PERFECT ECLIPSE** Springer Science & Business Media

The Soul of humanity is under threat - its ascension before the last eclipse of 2012 depends on the anchoring fo the Light. There are those who want us earthbound to be ravaged by war, darkness and despair. Like many others, Mia, an Australian astrologer has awoken

to the truth and understands the plight ahead to ensure our spiritual freedom. As the end times come closer and the shadow deepens, her messages are paramount: will humanity be ready to listen?

*The Life of an Eclipse Chaser* Little, Brown Books for Young Readers

The Soul of the Apostolate was the favorite book of Pope St. Pius X. This book shows how prayer is the soul of every apostolic work and is absolutely critical for apostolic success. Explores all the proved methods of developing and maintaining the interior life amid the bustle of daily activity. This excellent book will help you to understand the economy of salvation, as well as the many dead-ends that we fallen creatures tend to follow. A critically important

introduction to the spiritual life! This important book has been recommended by Pope St. Pius X and his successor, Pope Benedict XV. Pope St. Pius X said, "If you desire that God should bless your apostolate and make it fruitful, undertake everything for His glory, saturate yourself and your devoted fellow-workers with the spirit of Jesus Christ, animating yourself and them with an intense interior life. To this end, I can offer you no better guide than The Soul of the Apostolate by Dom Chautard, Cistercian Abbot. I warmly recommend this book to you, as I value it very highly, and have myself made it my bedside book."

### **Essays in Theological Anthropology**

Simon and Schuster

Have you ever wondered the need to

understand spiritual psychology and why it is important? Spirit attachment happens on an average regular basis, occasionally without us knowing. Have you ever wondered why Native Americans participate in sweat lodge ceremonies held in the day time? Blacking out of the sun, a solar eclipse happens in the daytime allowing with ease to purify and heal from within. Creating the absolute perfect eclipse, out with the bad, in the good; The 21 August 2017 eclipse across the United States can be energy purifying when understood how to do so.

*Narrative Psychological Case Histories and the Invention of Individuality in Germany, 1750-1800* Yale University Press

In Search of Soul explores the meaning

of “soul” in sacred and profane incarnations, from its biblical origins to its central place in the rich traditions of black and Latin history. Surveying the work of writers, artists, poets, musicians, philosophers and theologians, Alejandro Nava shows how their understandings of the “soul” revolve around narratives of justice, liberation, and spiritual redemption. He contends that biblical traditions and hip-hop emerged out of experiences of dispossession and oppression. Whether born in the ghettos of America or of the Roman Empire, hip-hop and Christianity have endured by giving voice to the persecuted. This book offers a view of soul in living color, as a breathing, suffering, dreaming thing.

ECLIPSE OF THE SOUL BY HELEN  
KOOIMAN HOSIER**

Explaining an Eclipse Univ of California  
Press

Presents a new interpretation of Aristotle's Analytics (the Prior and Posterior Analytics) as a unified whole, and argues that to "loose up" or solve -- rather than to reduce or break up -- is the principle meaning which best characterizes the Analytics. Offering a new interpretation of Aristotle's Analytics (the Prior and Posterior Analytics) as a unified whole, Patrick H. Byrne argues that a non-deductive form of ancient mathematical analysis influenced

Aristotle's thinking. Reading the Analytics with this perspective in mind sheds new light on Aristotle's theories of the syllogism, demonstration, and the principles of science. The book begins with a brief survey of ancient geometrical analysis and an investigation of Aristotle's uses of the Greek term, *analuein*. Byrne argues that "to loose up" or solve -- rather than to reduce or break up -- is the principal meaning which best characterizes Aristotle's Analytics. Extending this line of reasoning, he argues that for Aristotle scientific analysis commonly begins with knowledge of a "mere fact" (a conclusion) and seeks a rigorous demonstration which expresses knowledge of the "reasoned fact". Moreover, genuine analysis of a fact into

a reasoned fact cannot be accomplished unless the premises of demonstrations are themselves reasoned facts. Hence the processes which yield the immediate principles (especially definitions) are next investigated through detailed examinations of key examples which Aristotle provides.

*Sayings of Sages: or, selections from distinguished preachers, poets, philosophers, and other authors, ancient and modern. ... Compiled by E. C. Revons. With an introduction by E. Thomson* Wipf and Stock Publishers

From an award-winning author, astronomer, and anthropologist, an exploration of the scientific and cultural

significance of the mesmerizing cosmic display. Since the first humans looked up and saw the sun swallowed by darkness, our species has been captivated by solar eclipses. Astronomer and anthropologist Anthony Aveni explains the history and culture surrounding solar eclipses, from prehistoric Stonehenge to Babylonian creation myths, to a confirmation of Einstein's theory of general relativity, to a spectacle that left New York City in the moon's shadow, to future eclipses that will capture human imaginations. In one accessible and engaging read, Aveni explains the science behind the phenomenon, tracks eclipses across the ancient world, and examines the roles of solar eclipses in modern times to reveal the profound effects these cosmic events have had on human history.

Colored by his own experiences—Aveni has witnessed eight total solar eclipses in his lifetime—his account of astronomy’s most storied phenomenon will enthrall anyone who has looked up at the sky with wonder. “Aveni’s authoritative but accessible text is the clearest statement of the way our perception of eclipses has changed over the centuries.” —Stuart Clark, *New Scientist* “Authoritative and engaging.” —Marcelo Gleiser, NPR’s 13.7 “A recommended way to share the spirit of the occasion.” —Laurence A. Marschall, *Natural History* magazine “Everything you need to enjoy a solar eclipse—and even predict one, just like the Babylonians did! Aveni’s entertaining explorations show the very different impacts eclipses have had on past and

present cultures.” —David DeVorkin, National Air and Space Museum, Smithsonian Institution

#### Back Bay Books

¥ What does it mean to be human? ¥ How does a right understanding of personhood affect decisions on critical life situations? ¥ What implications does a biblical perspective on personhood have for the pastoral ministry of healing and hope? In answering these questions, Ray S. Anderson focused on the person as determined by and sustained by the creative power of God. He explored the the implications of a biblical understanding of personhood for such critical issues as human sexuality, family relationships, abortion, and death. He broke new ground in relating pastoral care and counseling to contemporary

issues which challenge Christians and their understanding of the meaning of human life.

And as streams of light fan out behind the darkened sun like the wings of a butterfly, I realize that I never saw real beauty until now. At Moon Shadow, an isolated campground, thousands have gathered to catch a glimpse of a rare and extraordinary total eclipse of the sun. It's also where three lives are about to be changed forever: Ally likes the simple things in life--labyrinths, stargazing, and comet-hunting. Her home, the Moon Shadow campground, is a part of who she is, and she refuses to imagine it any other way. Popular and gorgeous (everybody says so), Bree is a

future homecoming queen for sure. Bree wears her beauty like a suit of armor. But what is she trying to hide? Overweight and awkward, Jack is used to spending a lot of time alone. But when opportunity knocks, he finds himself in situations he never would have imagined and making friends in the most unexpected situations. Told from three distinct voices and perspectives, Wendy Mass weaves an intricate and compelling story about strangers coming together, unlikely friendships, and finding one's place in the universe.

Kent SteinerBooks

Eclipse of a Soul is a must read for anyone struggling with their faith. This is a beautifully written book chronicling the journey of a woman who felt lost in her faith and has now returned to living life to the fullest with her God. The title of the book says it all! Sister Maureen D'Onofrio, CSJ Raised in Massillon, Ohio, Bev graduated in 1969 from Central Catholic High School and later earned her MSN at The University of Akron. Her nursing career spanned Intensive Care to Director of Nursing. After a thirty-year absence, she returned to church and rediscovered the Lord. "My questions, fears, and doubts melted, revealing a glorious future with the Lord!" This culminated in a very close relationship with God, as reflected in her first book

titled, I Open Myself to You, Oh Lord! "I hope that others will be able to relate their lives to the challenges of my journey from darkness (hopelessness) to Light (peace), by finding God in their lives. At the end of my soul's eclipse, the corona of God showed me His Love and Forgiveness, salvation through Christ and guidance through the Holy Spirit." Bev is married to Douglas and resides in Liverpool, New York.

**Eclipse** Library of Alexandria

One hundred years before Freud's striking psychoanalytic case-histories, the narrative psychological case-history emerged in the second half of the eighteenth century in Germany as an epistemic genre (Gianna Pomata) that cut across the disciplines of medicine, philosophy, law, psychology,

anthropology and literature. It differed significantly from its predecessors in theology, jurisprudence, and medicine. Rather than subsuming the individual under an established classification, moral precept, category, or type, the narrative psychological case-history endeavored to articulate the individual in its very individuality, thereby constructing a 'self' in its irreducible singularity. The presentation and analysis of several significant psychological case-histories, their theory and practice, as well as the controversies surrounding their utility, validity, and function for an envisioned 'science of the soul' constitutes the core of the book. Close and 'distant' (F. Moretti) readings of key texts and figures in the discussion regarding

'empirical psychology' (*psychologia empirica*), experiential psychology (*Erfahrungsseelenkunde*) and 'medical psychology' (*medizinische Psychologie*) such as Christian Wolff, J.C. Krüger, J.C. Bolton, Ernst Nicolai, J.A. Unzer, J.G. Sulzer, J.G. Herder, Friedrich Schiller, Jacob Friedrich Abel, Marcus Herz, Karl Philipp Moritz, J.C. Reil, Ernst Platner and Immanuel Kant provide the disciplinary, historical-scientific context within which this genre comes to the fore. As the first systematic argument concerning the early history of this genre, my thesis is that the psychological case-history evolved as part of a pastoral apparatus of care, concern, guidance and direction for what it fashioned as the 'unique' individual, as the discursive medium in a process by which the soul became a

'self'. The narrative psychological case-history was in fact a meta-genre that transcended traditional boundaries of history and fiction, medicine and philosophy, psychology and anthropology, and sought, for the first time, to explicitly link the experience, history, memory, fantasy, previous trauma or suffering of a unique individual to illness, deviance, aberration and crime. In a word, it demonstrated, as Freud later said of his own case-histories in *Studies on Hysteria*, "the intimate relation between the history of suffering and the symptoms of illness" ("die innige Beziehung zwischen Leidensgeschichte und Krankheitssymptome"). This genre not only had a profound and far-reaching effect on the evolution of German and European literature – one thinks of the

rich traditions of the Novella and the Fallgeschichte from Goethe, Büchner, R. L. Stevenson, Edgar Allen Poe and Chekhov to Kafka and beyond – but in shaping modern literature, the clinical sciences, and even popular culture. The book should therefore be of interest not merely to Germanists, modern European cultural historians, historians of science, and literary historians, but also those interested in the history of medicine and psychology, the origins of psychoanalysis, the history of anthropology, cultural studies, and, more generally, the history of ideas.

**A Memoir of the Rev. Legh Richmond, A.M.** Walter de Gruyter GmbH & Co KG

Pulitzer Prize winner Tracy Kidder memorably records the drama, comedy,

and excitement of one company's efforts to bring a new microcomputer to market. Computers have changed since 1981, when *The Soul of a New Machine* first examined the culture of the computer revolution. What has not changed is the feverish pace of the high-tech industry, the go-for-broke approach to business that has caused so many computer companies to win big (or go belly up), and the cult of pursuing mind-bending technological innovations. *The Soul of a New Machine* is an essential chapter in the history of the machine that revolutionized the world in the twentieth century.

*The Soul of A New Machine* Wipf and Stock Publishers

As the love triangle heats up in the third book, Bella must choose between her

friendship with Jacob and her romance with Edward -- and her decision could change the fate of vampires and werewolves forever. As Seattle is ravaged by a string of mysterious killings and a malicious vampire continues her quest for revenge, Bella once again finds herself surrounded by danger. In the midst of it all, she is forced to choose between her love for Edward and her friendship with Jacob -- knowing that her decision has the potential to ignite the ageless struggle between vampire and werewolf. With her graduation quickly approaching, Bella has one more decision to make: life or death. But which is which? It's here! #1 bestselling author Stephenie Meyer makes a triumphant return to the world of *Twilight* with the highly anticipated

companion, *Midnight Sun*: the iconic love story of Bella and Edward told from the vampire's point of view. "People do not want to just read Meyer's books; they want to climb inside them and live there." -- Time "A literary phenomenon."  
-- The New York Times
