REVIEW OF ACCOUNTING QUESTION PAPER

- This was one of the best books that I have ever read! You would be crazy to buy this book and not like it! If you aren't going to read this book, then don't buy it. This is a great book and deserves to be read, not laying around your home collecting dust!

- Being a sci fi fan and read Lord of the Rings when I was teen, I was amazed that this young author could hold my interest for so long. I'm disappointed that I have to wait until 08/05 to get book 2. Eragon is well written especially when it was written by someone so young. People who criticize this book should think first, I would like you to sit down and write out a well rehearsed book with chapters that intrigue and make you read on and on. I couldn't put the book down. Yes there are elves and

dwarves as in Lord of the Rings, but it is a truly different book, and the way he writes about Shapira, does make me wish to read more. I truly truly loved it, and I'm no teenager, being 40'sh myself,

who has read thousands of books over the years, I give it 2 thumbs up. Keep up the good work, and I recommend anyone to buy this book.
