REVIEW OF CALCULUS EARLY TRANSCENDENTAL FUNCTIONS FIFTH EDITION

- This book is very cool. Most of the things are really cool to learn and do, Its def. worth reading
- I have a hard time recommending this book. There are plenty of Official Guides to the Marvel Universe out now that have more information, and are likely more accurate. Typos and mislabeled pictures are frustrating for someone who knows the history well, and misleading for those that may not. That being said, it has a picture for everyone, and it is a nice book to flip through. If you are a Marvel-phile like myself, it really isn't a bad pickup. If you want to know more about the history of your favorite characters - I'd look other places instead.
