REVIEW OF BASICS OF QUANTUM PHYSICS UNDERSTANDING THE PHOTOELECTRIC EFFECT AND LINE SPECTRA

- As one ploughs through this mammoth tetralogy, it becomes clearer and clearer (pace all other reviewers) that all the main characters (Chris Tietjens, Mark Tietjens, Sylvia Tietjens and Valentine Wannop) are completely, irretrievably MAD. Chris, the protagonist, is NOT the "last Edwardian gentleman". He is, hopefully, the last gentleman who believes himself to be a 17th Century Gentleman, more specifically, the Seventeenth Century poet/gentleman George Herbert.-As he says to himself many times, throughout the work, "I have what they call a complex"-His complex also includes being an otherworldly (after all, he's living in the 17th Century) martyr who lets himself be taken advantage of time and time again.Sylvia, his wife (at least legally), is a character you'll come to despise more than any other woman I can think of offhand in literature (Maybe Lady MacBeth is in the running.). But she too is mad. As she explains it to herself, all the terrible things she does to Chris, she does so that she will feel on an equal footing with her husband and not feel constantly inferior to his martyrdom and to his code of the 17th Century gentleman as he imagines it.Mark, at first, seems your run-of-the-mill sneak who steals his brother's Chris's brilliant work for the Department of Statistics, and is made a baronet for the work. But, after suffering a stroke which renders him speechless, deteriorates so that by the last chapter in the book, he gives the most muddled prose reverie to be found in it, which is saying rather a lot.Valentine, whom we never really get to know, is, like Chris, a genius, but she too is driven mad by Chris's martyrdom and refusal of money from all sides to work instead selling furniture to uncouth Americans. To her is given the penultimate, mad, muddled chapter in the book.So what is this book about then, save a collection of bedlamites?-It is obvious that, to anyone who knows anything of Ford Madox Ford's life---It is about this life. Chris Tietjens is his alter ego and etc etc-Doubt me?-Read the best biography I know of him, The Saddest Story (1971), and you will be in doubt no longer. Parade's End reads like a roman a clef once you know something of his trials and travails.Still, I can't pretend I agree with the other reviewer's take on this book. There are several dashed good reasons that it was out of print for so long: It is long-winded, the characters don't develop much at all. And one feels, in the end, that one might as well have spent the time reading the poetry of George Herbert to get the feel of what Ford was trying to convey here.Three mad, swirling stars.

- I first read this book when it came out in paperback, I was probably 13. It is still to this day one of my most favorite books. The movie. however, was a big dissappointment. I'm really excited about introducing the audiobook to my wife, who is not a big reader.
