LAST IDEAS

In general, we believe that Masters Of The Universe Bible Zen Internet deserves a read, despite some minor imperfections. The special narration style, relatable characters, and story twists make it a beneficial addition to your shelf. So, if you're seeking a fascinating read, Masters Of The Universe Bible Zen Internet is certainly worth thinking about.

REVIEW OF MASTERS OF THE UNIVERSE BIBLE ZEN INTERNET

- I had to read this book for a 7th grade report, and believe me, it was terrible. The whole school hated it, all the teachers too-except the ones who taught literature. Is this some universally bad book for kids, and great book for adults into literature? I strongly object one of the other reviews, the one who says kids who don't like this book haven't read "great literature." I love to read, and even though Western novels aren't my favorite, I do know the difference between a good book and a bad one- this was clearly one bad book. Many reviewers say this book was too descriptive. It definitely was, but that is not a major reason to dislike this book. The major thing was that it was too boring, I

couldn't read more than ten pages before starting to skip words, sentences, even paragraphs.

- I understand completely why kids assigned this reading for school did not enjoy it. Though told through a young boy's eyes, the writing style is mature and uses many descriptive paragraphs. Though sometimes impatient with description, I loved the story all the more for the details; but some pre-high-school kids will become bored. It's true that Bob's introspection is unusually discerning for his age. However, some remarks indicate that he could be writing this at a later time in his life, looking back on what happened with a wiser perspective. Either way, the author's depth of observation from an unlikely character can be forgiven as he elicits reader sympathy and

understanding. Bob's view of his world may not always be reliable (especially when referring to his hero as "invincible"), but he is always endearing. Reading about Bob's naive, honest idolization of the mysterious gunman, I wanted Shane to stay, too. And looking beyond Bob's innocent perspective, the mature reader sees things that Bob does not, understanding his parents as well as Shane even better than he does himself. This work of art manages to stay short (120 pp.) without losing the substance and quality of much longer novels. Any shorter, and something would be missing. Any longer, and the added words or events would be unnecessary, lessening the "punch" that perfect length gives this tale. If all Westerns are as captivating as this jewel, maybe I'll try another one sometime!
