REVIEW OF MANUAL PEDAL ZOOM 707 GUITAR

- A carnival comes to a small town. Mr. Dark presides over it. He starts to spread evil over the town. Only two young boys--James

Nightshade and William Hallowsay--are aware of it and try to save the town. I had to read this in college. I looked forward to it. I liked Bradbury's short stories very much. Unfortunately this is virtually unreadable. Bradbury seems to like showing off how smart he is and renders most of the descriptions of places and things in flowery, overdone language. More often than not I had to reread a sentence multiple times before I understood it! This is a perfect description of the word "pretentious". The sad thing is this has all the elements of a good horror story. The description of Mr. Dark's carnival works (when you can understand it) and the Dust Witch "marking"

the two kids houses is downright horrific. There's also the ferris wheel that ages a person at each spin. This is all creepy stuff but Bradbury seems more intent on showing how intelligent he is than making a coherent story. Too bad.

- I admit i thought this book seemed strange and somewhat corny from first reading the synopsis. But after begining to read i was imediately swept into Bradbury's vision. I could clearly see every detail and believe in the fantastic events. This book also provides a wonderful discourse on good and evil and the nature of each. As all good literature should it does not provide answers but asks deep questions.
