The automobile sector is one of the most archetypal global industries and is seen by many as one of the main drivers behind the homogenisation of world markets due to firms' internationalization strategies and the social practices that firms impose. This book argues that this is not entirely the case due to the heterogeneity of firms and the diversity of strategies pursued. It highlights the diversity and forms of internationalization and the preference for regionalization rather than globalization that has occurred over the past decade. This book looks specifically at the American and Asian car industry.

REVIEW OF REVUE TECHNIQUE OPEL CORSA D

- I've been roaming Mexico, Franz-like, for 40+ years, and he had ideas I hadn't thought of. He also gives an accurate and readable flavor for his kind of travel. My wife and I will retire there, but we'll be separated for a year first; I bought her a second copy for Christmas because I wasn't willing to part with mine.

- I would just like to say that I found the book written by Bryan Carraway about Spiritual Gifts very interesting. Its one of the easiest books of the Spiritual Gifts to teach from that I have ever seen or read. I would like to thank Mr. Carraway for writting a book that everyone can read and understand about the Gifts of the Spirit. Keep up the good work and hope to read about others in the future.
