REVIEW OF LE DUE TIGRI

- thoughtful scientists, and this book's primary author is a testament to this claim (other reviewers have already provided some critiques that illustrate this). If you are looking for a high quality treatment of evolution, try *The Blind Watchmaker* by Richard Dawkins. If you are religious/spiritual or trying to talk yourself into becoming religious/spiritual, don't bother with either book. Religion is about faith, not logic and rationality--and if you

choose to have faith that is perfectly fine. If you are trying to find rational proof of God's existence by reading a book that tries to discredit evolution, you are missing out on the most rewarding, experientially based aspects of spirituality -- aspects involving an experience of expansiveness and connection that is not possible through literal adherence to language (see, for example, Martin Buber's book, *I and Thou*, or Pema Chodron's *When Things Fall Apart*). If you hope to convert atheists and agnostics to Christianity with the biased 'rational' arguments presented in this book, they will miss out as well.

- This is a great source of all kinds of information pertaining

to the Craft! As it follows no set doctrine, it is refreshing to have a book like this that is unbiased to any one Path. The information is well-laid out and targets the Initiate and higher learners. This is an excellent, must-have book for the well-read, discerning witch's bookshelf!
