What does pleasure have to do with

morality? What role, if any, should intuition have in the formation of moral theory? If something is 'simulated', can it be immoral? This accessible and wide-ranging textbook explores these questions and many more. Key ideas in the fields of normative ethics, metaethics and applied ethics are explained rigorously and systematically, with a vivid writing style that enlivens the topics with energy and wit. Individual theories are discussed in detail in the first part of the book, before these positions are applied to a wide range of contemporary situations including business ethics, sexual ethics, and the acceptability of eating animals. A wealth of real-life examples, set out with depth and care, illuminate the complexities of different ethical approaches while conveying their modern-day relevance. This concise and highly engaging resource is tailored to the Ethics components of AQA Philosophy and OCR Religious Studies, with a clear and practical layout that includes end-of-chapter summaries, key terms, and common mistakes to avoid. It should also be of practical use for those teaching Philosophy as part of the International Baccalaureate. Ethics for A-Level is of particular value to students and teachers, but Fisher and Dimmock's precise and scholarly approach will appeal to anyone seeking a rigorous and lively introduction to the challenging subject of ethics. Tailored to the Ethics components of AQA Philosophy and OCR Religious Studies.

Howard Zehr is the father of Restorative Justice and is known worldwide for his pioneering work in transforming understandings of justice. Here he proposes workable principles and practices for making Restorative Justice possible in this revised and updated edition of his bestselling, seminal book on the movement. (The original edition has sold more than 110,000 copies.) Restorative Justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is a worldwide movement of growing influence that is helping victims and communities heal, while holding criminals accountable for their actions. This is not soft-on-crime, feel-good philosophy, but rather a concrete effort to bring justice and healing to everyone involved in a crime. In *The Little Book of Restorative Justice*, Zehr first explores how restorative justice is different from criminal justice. Then, before letting those appealing observations drift out of reach into theoretical space, Zehr presents Restorative Justice practices. Zehr undertakes a massive and complex subject and puts it in graspable form, without reducing or trivializing it. This resource is also suitable for academic classes and workshops, for conferences and trainings, as well as for the layperson interested in understanding this innovative and influential movement.

Many people have the need to take notes: interpreters, attorneys, health care providers, and students, among

others. Some try to learn short-hand, a complex system which requires several months (even years) of practice to master. There is a widely unknown but simple alternative to take notes more clearly and efficiently. Jean Francois Rozan and Andrew Gillies, two pioneer conference interpreters, provide techniques to significantly streamline note-taking. Although originally created for interpreters, these practical guidelines are extremely helpful to anyone who takes notes. The Note-Taking Manual will help you master note-taking symbols as well as Rozan and Gillies' techniques. You will acquire up to 40 new symbols through dictations (available as audio files at www.interpretrain.com). Each exercise offers a sample of notes to compare with your own and discover additional tips. These educational tools will help you become the best interpreter and/or note-taker you can be.

Esta publicación, de libre acceso, se destina en especial a profesores de español, estudiantes de filología (futuros docentes en potencia), investigadores y a todo aquel que se interesa por conocer más a fondo esta área de actuación. Por su carácter innovador, esperamos que se convierta en una herramienta útil y en un recurso teórico-bibliográfico, didáctico y metodológico eficiente. La obra está compuesta por trece capítulos que pretenden dar a conocer algunas de las discusiones que se llevan a cabo, en estos momentos, en el ámbito de la enseñanza de lenguas con fines específicos. La opción por seleccionar

trabajos relativos exclusivamente al área de Turismo se debe a que, por una parte, es uno de los campos profesionales que más crecen en Brasil y, por otra parte, porque todavía son escasas las publicaciones que tomen como foco esa área de actuación. Este libro proporcionará al lector el contacto con diferentes estudios lingüísticos que se vinculan a diversos ámbitos, tales como fonética y fonología, adquisición y aprendizaje del español, historia del español en la educación brasileña, terminología, turismo idiomático, traducción, producción textual, géneros discursivos, usos del diccionario en el aula entre otros. En este sentido, el objetivo principal de esta obra es contribuir con la difusión e investigación de la lingüística hispánica de la mano de especialistas que conocen muy bien el contexto estudiado.

The need for constructing a lexicographical theory with a particular focus on specialised dictionaries for learners is well documented in recent publications. This will imply paying attention to, at least, four basic lexicographic categories: learners; the learner's situation; the learner's needs; dictionary assistance. In one or other way, these categories are analysed in this book, whose eleven chapters are grouped into three parts. Part 1 reflects on some of the main ideas defended by the function theory of lexicography, perhaps the theoretical framework that has paid more attention to specialised lexicography. Part 2 presents some proposals that have already been explored in the field of general learner's

dictionary and must be incorporated into specialised metalexigraphy: cultural aspects; figurative meaning; the inclusion of grammatical information; the use of corpora. Part 3 introduces the state of play regarding specialised dictionaries in China and offers some ideas for coping with the proliferation of terminological glossaries in Internet. The book also describes Enrique Alcaraz's academic achievements, together with some personal anecdotes, and a personal short tribute to his memory.

REVIEW OF EL ESPANOL JURIDICO SPANISH EDITION

- The only good thing I can say about this book is that it gave me a lot of strange and scary things to ponder. The author rambles for several chapters, then takes the reader along for his silly interpretation of 'family' life. If only the world were like him, he imagines that everything would be okay. Sedaris is flagrantly self-absorbed and immature. A truly disappointing read.

- If you have ever wondered where the "facts" about Catholicism published by people like Jack Chick and Tony Alamo came from, you have found the place. Boettner's book helped me to understand why some of my non-catholic friends thought Catholics worship Mary and statues and pictures of Saints. Boettner, himself swimming in a sea of ignorance, while perhaps well-intentioned, leads others into this sea of ignorance. Boettner would do well to check the REAL facts, as would Chick and Alamo. If you want to know the Truth about The Church founded by Jesus Christ, the Roman Catholic Church, contact a priest, catechist or someone else who is knowledgeable about The Church, read Karl Keating's Catholicism and Fundamentalism, is is also available through Amazon.com
