Images have caused uproar, violence and even casualties in the meeting of religions and cultures during the last years. Iconoclasm and iconolatry are on the agenda once more. Late Modern Culture is dominated by images and is understood in concepts such as aestheticization and symbolisation. Theological debate is likewise performed through images, symbols and rituals rather than through doctrines and beliefs. In this book, authors from various research backgrounds seek to clarify the terms of reference, and explore the diversity and disagreements in their use from a Christian perspective.

When world-class biblical scholar Bart Ehrman first began to study the texts of the Bible in their original languages he was startled to discover the multitude of mistakes and intentional alterations that had been made by earlier translators. In *Misquoting Jesus*, Ehrman tells the story behind the mistakes and changes that ancient scribes made to the New Testament and shows the great impact they had upon the Bible we use today. He frames his account with personal reflections on how his study of the Greek manuscripts made him abandon his once ultraconservative views of the Bible. Since the advent of the printing press and the accurate reproduction of texts, most people have assumed that when they read the New Testament they are reading an exact copy of Jesus's words or Saint Paul's writings. And yet, for almost fifteen hundred years these manuscripts were hand copied by scribes who were deeply influenced by the cultural, theological, and political disputes of their day. Both mistakes and intentional changes abound in the surviving manuscripts, making the original words difficult to reconstruct. For the first time, Ehrman reveals where and why these changes were made and how scholars go about reconstructing the original words of the New Testament as closely as possible. Ehrman makes the provocative case that many of our cherished biblical stories and widely held beliefs concerning the divinity of Jesus, the Trinity, and the divine origins of the Bible itself stem from both intentional and accidental alterations by scribes -- alterations that dramatically affected all subsequent versions of the Bible.

**Codex of the Soul** HarperCollins UK

"Possibly they died in the hands of British MI-5 Intelligent agents who have been spying on them", said Glyn Jones, a former British Intelligent agent who had been recruited from Special Air Service (SAS) - British elite air-force— as he was giving comments on the death of Diana and Dodi Al-Fayed, (Indonesian magazine, Gatra, October 11, 1997), quoted from the German tabloid (Dos Neue). Having been tracing the route of Paul's blood sample, which was examined by the judges in France, Al-Fayed concluded that such the blood sample was not Paul's; it had been changed in order to cover the murder. Then he uttered: "What happened to Diana and my son was nothing but a murder, and I won't just keep silent until I get the truth." (Indonesian Newspaper, Republika, September 1, 2000). According to Thomas, the target of MOSSAD actually was not Dodi and Diana. MOSSAD has never interested in these couple. What they need was "the informer", a person who gives them information on the illegal weapon traders that sell weapons to Israel's enemies. For that reason, MOSSAD dropped its field agent Maurice, who was well known as "an excellent manipulator". (Indonesian tabloid, Aura, No.31/Year IV, 1st Week, September 2000). Although Al-Fayed had to accept the verdict stated by the State Court in London, he still believes that Diana and his son died

due to the conspiracy. The verdict itself was based on the conclusions of a group of jury- eleven of them-, and it was read by the judge Scott Baker. It says that the death of Diana and Dodi was merely a traffic accident caused by the drunken driver. Gisele Paul, a mother of Dodi's driver and simultaneously his body guard, Henry Paul, who was accused of being drunk when driving, agreed with Al-Fayed. She is much convinced that her son died due to the complicated high-rank conspiracy. "The truth will never be revealed", she said desperately. (Indonesian magazine Gatra, No. 23, Year XIV, April 17-23, 2008). Will this case be over just like that? Absolutely not!! This novel will deeply analyze all the questions coming up due to the above statements. An Indonesian senior literary man, Taufiq Ismail, whose great name is much known by Indonesian nation, commented as follows: "His logical plots were very smart and able to lead us to believe that the scenario of the murder of Princess Diana wouldn't be quite different from this "semi-fiction" story composed by Indra Adil." - Pustaka Al-Kautsar Publisher -

This fascinating visual account of firearms shows everything from the earliest cannons to modern weapons of war. It also highlights how gun technology and military tactics developed in tandem over time. Centuries ago, the Chinese discovered that if they put gunpowder and a projectile into a metal tube and ignited it, they could fire the projectile with enormous force. The first guns were born. Firearms: An Illustrated History showcases over 300 firearms including pistols, revolvers, rifles, shotguns, machine-guns, and artillery, each with annotated close-up photographs and details of their origins, barrel, and caliber. It details the use of the firearms, not just in the military but for sport, hunting, and law enforcement. This comprehensive volume traces the history of firearms,

highlighting "turning points" such as the rifle with its parallel spiraled grooves that could impart a spin to bullets making them fly straighter. It also showcases iconic firearms such as the Walther PPK self-loading pistol popularised in James Bond films. With information on the great gunsmiths including Beretta and Kalashnikov and a detailed guide to how guns work, *Firearms: An Illustrated History* is an essential purchase for everyone interested in guns and military history.

## **REVIEW OF CODEX KONSPIRASI JAHAT DI ATAS MEJA MAKAN KITA RIZKI RIDYASMARA**

- The Shelters of Stone is Jean M. Auel's fifth novel in the Earth's Children series, published twelve years after the fourth, The Plains of Passage. Ayla and Jondalar have reached the home of his people, the Zelandonii, and are welcomed by his family. As in the last two novels, strangers are amazed by the tame horses and wolf, impressed with the spear thrower, and disgusted by or suspicious of Ayla's background with the Clan. There is a lot of repetition from the previous novels in the series, perhaps due to the lengthy gap between the fourth and fifth novels. This might be because Auel wanted Shelters to be a stand alone novel for new readers to the series, but for those who have

recently read or remember the others, it can cause the story to drag. There is not a lot of action in this book and at times it can read like a textbook on how Ancient Peoples lived, much of which was already learned in the first four novels. While there are some interesting sections, overall I was a bit disappointed. Also, if I read that darn "Mother's Song" one more time, I could have performed it at a Zelandonii festival myself!

- I have read her other 4 books in this series, and I fell in love with the characters and read with gusto! There is much detail, lots of in-depth explanations of life in that time - and I felt as if I were there with them - thru the exciting times she described! I truly hope she will write many more, using these characters, and others. I feel as if there are many more stories out there to be told about Ayla and Jondalar and their exciting lives with all the innovative things they were capable of devising! I wish the books had gone on and on - I hated for them to be over - and I await the next ones eagerly!
