## **REVIEW OF MY ONENOTE 2016 INCLUDES CONTENT UPDATE PROGRAM MY**

- The basics of the program and the

information contained within this book are solid. However it was poorly edited. Several swim work outs on the schedule are not described in the work out description section. Why would the authors assume knowledge of these workouts, yet take the time to describe other basic workouts? The formatting of the workouts left me guessing on occasion as nomenclature meaning shifted from one day to the next. There's direction to refer to chapters that do not contain the information needed. Not a perfect reference, I hope it

gets me to the finish line!

- I found this at a book outlet for [cheap], and I bought them immediately because Pimsleur tapes have been recommended to me. Well, these are fantastic: You retain everything you hear, and it's actually very exciting. Before using these, I couldn't understand pronunciation at all but with them I am beginning to grasp it. I have tried Berlitz's living languages series and these tapes are a million times better. They're very effective and fun. I highly recommend them.
