REVIEW OF SUZUKI SX4 RW415 RW416 RW420 SERVICE REPAIR MANUAL

- This is but yet another Grand Slam for Arthur Upfield. His numerous Inspector Napoleon Bonaparte mysteries are each a joy to the mystery reader, especially for those who particularly savor the works of Christie, Tey, Sayers, Rinehart, and Ellery Queen. Here the half-caste inspector (he's half Aborigine, half Caucasian) is called in to investigate a small (and stolen) plane that has landed in the Australian Outback with one passenger, a young lady who was apparently comatose when it landed! But the plot thickens as this gal's condition continues to deteriorate and "Bony" (as all his friends call him) is working against time to save her life. A drunken physician, a suspicious foreman, two indigenous farm hands, and many other colorful characters serve to heighten the reader's delight in this suspenseful tale. And it's not a spoiler to all Upfield fans to know in advance that Bony always solves his cases. This entry is at least as good as Murder Down Under. Highly recommended!

- Helter Skelter starts out with a page that simply says "The story you are about to read will scare the hell out of you." That is an extremely accurate statement. No if's, and's or but's about it. This book is terrifying! While I was born a couple of decades after Manson and his "Family" committed these murders, I still had a general idea of what exactly took place at the crime scenes and the havoc that Manson and co. wreaked (plus my interest in criminology had me seeking out tons of cases that were featured on the TruTV website a few years ago and this one was the most prominently displayed). While Manson and/or his followers are very rarely in the news nowadays (unless one of them is up for parole), the crimes committed were so horrific that they are still brought up today (mainly in procedural shows i.e. Criminal Minds, Law & Order, etc.). Reading Helter Skelter, there was one thing that was stuck in my mind and that was the ages of most of Manson's followers. We're talking about young people from ages 16 to about 28. Now I'm 21 and I can't even fathom how a human being can commit an atrocious crime like this. Let alone when they are so young and have their whole lives ahead of them, yet let themselves be brainwashed by Charles Manson and his skewed perception of love. It's truly a shame and if not for them, then certainly for all the victims and their families. Helter Skelter is definitely not a book for the faint of heart. It's gruesome, terrible, and unflinching. It doesn't shy away from the brutality that the victims suffered at the hands of their murderers. And like the first page said, this book will scare the hell out of you. I was extremely paranoid while reading this, always double and sometimes triple checking my locks. It just shows how human beings have the potential to be incredibly evil. However, Helter Skelter is an extremely compelling read. While it didn't exactly fly by for me (but that's mostly because I had to keep putting it down to avoid jumping out of my skin too much everytime someone knocked on my door past 5:00PM), it kept me enthralled when I was reading it. While I didn't exactly enjoy it, I did find it to be a well-written read that was incredibly gripping. And while I haven't read much true crime, I can tell that Helter Skelter is true crime at its best.
