REVIEW OF L Q CHOBHAM MANOR

- The book is very poorly written. It doesn't have enough solid complete examples to cover a topic. The author tries to rush through and cut corners at every place. The author doesn't realize that theory is best when it is coupled with complete examples. Even the CD is poorly organized and doesn't flow with the book. I'd give this a -1 star if I could. I think the book "core java 2" is much better.

- A hugely enjoyable book, impossible to put down. To paraphrase the writer Paul O'Neill, Arthur Conan Doyle grabs the reader by the throat in the first paragraph, sends his thumbs into his windpipe in the second, and holds him against the wall till the thrilling, dramatic end. A tour de force.
