REVIEW OF ADVANCED PROJECT FINANCING STRUCTURING RISKS

- I bought this book because it is supposed to be geared toward preparing for the Windows Architecture I & II exams. However, the book fails to cover much of the exam material, and what it does cover isn't clearly organized between the two tests. I recommend not wasting your money on this one.
- The book arrived quickly and it was in amazing shape. I had a question about what was included and they responded right away. I bought a second one, pristine condition as well, just like the first one.
