## **REVIEW OF AS 568 STANDARD O RINGS QUICK REFERENCE CHART APPLE RUBBER**

- A good friend of J.R.R.

Tolkien, Clive Staples Lewis was an atheist as he entered adulthood, but had a genuine awakening of spirit (one of the most thorough conversions known). An "apostle to the skeptics", he was a deep thinker and prolific writer, yet always accessible to the genuine inquirer. As an British citizen during World War 2, he grappled daily with the existence of evil - whether characterizing an individual, or an entire nation. He was finally joined in his death by Aldous Huxley and John F. Kennedy (all three died on Nov. 22, 1963). Lewis wanted us to think about "mere" Christianity - the truth-claims and implications of Jesus' life, without all the various trappings that had become

encrusted around that, over the centuries. He analyzed the absolutely unique claims of Jesus of Nazareth, statements that would be sheer lunacy or megalomania were anyone else to speak them (e.g., the ability to forgive sins, to receive worship etc.), yet we find them very compatible with His humility. I would commend anybody with an open mind to consider the most unique Person in history, as presented by one of the most unique writers, philosophers and thinkers of the 20th century.

- I bought this book to pass onto my sister. I bought the complete C.S. Lewis Signature Classics because I want to read more of his stories. Everyone can

learn about life and religion through C.S. Lewis. Excellent!
