REVIEW OF CONSTRUCTION METHODS AND MANAGEMENT NUNNALLY SOLUTION MANUAL

- Really, the worst thing about the book is all the cheesy dialogue; the moment the story started with "Stop whoever is coming...or die" I knew I was in for a roller coaster ride of cliches. His writing and descriptions aren't impressive either. Writing 101: don't start every sentence in a paragraph with a pronoun, it's obnoxious, and trying to vary that up with time indicators (i.e: while, when, at that time, at that moment, in an instant), is unimaginative and mediocre. Yes, he's 17. So what? It's not impressive for a 17 year old to write like this, it would be impressive if a 12 year old wrote like this.

- The story of Eragon is a definite read. It begins with a normal farmer boy that finds a stone in The Spine. He finds it unusual that a perfect smooth stone should happen to fall into his possession. When he realizes that this stone will lead him into the fantasy world there is no turning back. I enjoyed this book so much because magic is such a great theme. As people we really don't know if there is a world of magic and it is fun to think of all the impossible actions that could happen. The events come in an assiduous matter, which made me want to keep turning the page.
