REVIEW OF RUDIMENTS OF MUSIC BY ERIC TAYLOR

- I am re-reading the book, and was compelled to share my love and appreciation of the deep understanding and unique approach to organizations and to the ways of dealing with change offered by Arie de Geus. I'm undergoing through deep change in my life; my business is growing and changing. The book gives courage, foresight, support, tools and a map both to pass through the

process holistically, and take responsibility for the future. I see how my whole company is taking responsibility for its future. I give credit for this movement to the ideas and concepts laid out in the book.

- I bought this book from Amazon in used condition but 'like new'. Little did I realize or even think about that it didn't come with the jacks and ball. Now I have to try to find the right size jacks (not jumbo ones) and a ball. I guess you get what you pay for!
