So what are you waiting on? Beginning exploring the globe of Day Tours Coach Hire PDF downloads today and benefit from the riches of information at your fingertips. **Download Day Tours Coach Hire PDF complimentary** and enhance your understanding experience!

## REVIEW OF DAY TOURS COACH HIRE

- Is it possible to make a book about chess that is a gripping read? Even for a reader not that familiar with, or interested in, the game itself? This book answers with an emphatic "Yes". I was 16 in 1972, an avid (though very mediocre) chess player, and a very close observer of the events recounted in this book. The authors do not exaggerate the importance that this match took on the world stage. Fischer's victory was indeed viewed as a great triumph in the US, on a par with the 1980 Olympic hockey "miracle on ice". But it has taken the passage of time to put everything in perspective. Fischer was a brilliant player, maybe the best of all time; but his antics that were then viewed as idiosyncracies, as the spoiled behavior of the prima donna sportsman, can now -- in view of his behavior of the last 30 years -- be seen as the early signs of absolute craziness (pardon the layman's term, I'm not a psychologist). The guy was, in a word, nuts. A story of triumph and tragedy, and very well told -- it makes for a completely absorbing read.

- The Fischer-Spasky world chess championship was a cultural phenomenon in the United States perhaps difficult to imagine for those now under the age of 45 and thus unlikely to remember. It was big. For chess, amazingly big. The cold war overlay, the never-done-before, and the cold war overtones: think U.S. Olympic Hockey medal as a parallel. It has faded

from memory in part because of the embarrassment and subsequent decline of the American hero: Bobby Fischer. His anti-social, narcissistic personality problems made his actions at the championship difficult to be proud of and, as his mental health patently declined, left this as the final shining moment of his career. This book does a very good job telling the story (for better or worse, without much chess; one's experience of the book would differ little even if one didn't know how to play). We follow the lives of Fischer and Spasky leading up to the match in great detail, but not so much as to be dull. The result is a better understanding of the entire event, with heightened interest resulting from the story's presentation by two Brits--a different perspective on America during the cold war. I did think the book perspective (compared to my own) cast Fischer's mental problems more as gamesmanship than as the onset of a serious disorder and would have liked a bit more explanation of Fischer's genius (there are plenty of adjectives offered but not as much analytical explanation, compare for example, Einstein: His Life and Universe, which gives even a physics ignoramus some understanding of his genius). The book is also to be lauded for research from FBI files that seem to show Fischer had a different biological father than he (or the world) had believed. This is a big deal, and I do wish this had been developed more, but it is a step forward for which these authors deserve credit. If this subject interests you, this is a very good treatment.
