REVIEW OF HEAT MASS TRANSFER 4TH EDITION CENGEL SOLUTIONS

- The Giver is a thought provoking book. The community is controlled by a group of elders who believe they are protecting the people of their community. The people in the community experience a life without pain and little emotion and no memories of the past. This is seemingly a wonderful life except it is a life controlled by a committee. There is however, one individual the Giver, who carries the burden of all memory, emotions and suffering for the community. He is like Jesus who died on the cross and took all of our sins with Him except the Giver is not perfect. Therefore, every number of years a new child is picked by the committee to be the receiver of all the pain, memories and emotion. The current giver passes this on to the new giver and so the community continues until one receiver no longer plays by the rules of the community. The burden of being the receiver is great and they bare much pain during this time. I like how Jonas became the receiver and took up all the memories and realized all that is wrong about the community. I dislike that there is no lovingness between the members of the community. They have no pain but the also lack any real passion or love. It made me appreciate that although life can be difficult (there is real good and real bad), these two conflicting emotions are what bring vitality to life.

- This is still the best book out there, even though it came out over 10 years ago! this book clearly tells a story, with characters youll remember years after you finish, about how you will never really have a perfect community. because of the excelent plot, and lois lowrys writing style, i imagine this book will still be read to my childrens children!
