### REVIEW OF QUALITATIVE JOURNALS

• This elegant little novel totally swept me away. It is so perfect from any angle I look at it. I know that this will be one of those novels I will always keep in a prominent place on my bookshelf and return to my whole life.This exquisite novel primarily concerns Lucy Honeychurch. The novel begins

with Lucy on a trip in Italy. She is accompanied there mainly by members of her own society, the upper class of England among which she has been raised. While in Italy, though, Lucy is confronted by the Italian society where she notices the classes seem to mix easily. She is also confronted with George Emerson. George is simple, direct, and of a lower class, and he is having existential worries. Despite themselves (or their pasts), the two begin to fall in love with one another, and their experiences eventually lead to their realizations of what their hearts really desire.As it is with all of my favorite novels, I really cannot do A Room With a View justice with this review. This is a truly lovely book. The prose and the pace is perfect. There are so many sentences which are just perfect little gems by themselves. The characterizations are complex. The plot is romantic and funny. The thought behind the novel is meaningful and life affirming. There's not much more that any novel can do. A Room With a View is perfection.

• Sun and Steel is on its face a story about physical and ideological transformation through the realization and experience of bodybuilding and martial arts. For westerners in the post-Schwarzenegger world, "sun and steel" conjures images of ye olde California body-building culture, and Mishima's work has some aesthetic connection with that, too. However, it needs to be remembered that sun and steel in the Japanese context have very different meanings, referring both to the Japanese artistic and martial traditions and to Imperialism and militarism. While it is not the topic per se of this book, the meaning of the book is the conflation in Mishima's mind of these three things--the physical body, traditional Japanese aesthetics, and WWII-era totalitarianism. While it is not quite fair to call Mishima a fascist, one does need to answer the question of why Mishima's costumes for photos included loin clothes, swords, and modern military uniforms, but not traditional armor. Or why his books are about soldiers and martial artists but he didn't write historical novels of the Edo or Sengoku periods. Or why he studied karate, kendo, and iaido rather than enrolling in a traditional school of martial arts. Or why he took up western-style body-building rather than engaging in traditional Japanese physical culture. In discussing the Shield Society, his private army, Mishima described a triangular relationship between comrades and the Emperor, where the Emperor acted as a mystical bond between men. And in an interview, the headmaster of a school of traditional bujutsu described the emphasis on death as a modern and decadent misunderstanding of the samurai, who valued life, as they valued service and success over romantic death.Sun and Steel is a fascinating book, eccentric if not unique. And it will probably be enjoyed by anyone seriously at odds with modern times. But it is not written by a true reactionary so much as by an aesthetic who remained true to the visions of his youth. Mishima's opposition is to the democracy that forcibly replaced the mid-20th century Imperial system, not to the modernity that supplanted Japan's traditional values, arts, and politics.
