So, what are you awaiting? Begin your analysis experience today with electronic Automated D Vehicles publication downloads. With many titles and categories to choose from, the opportunities are unlimited. Delighted reading!

REVIEW OF AUTOMATED D VEHICLES

• Prep, a story told by the talented Curtis Sittenfeld, was hard to put down. The narrator, Lee Fiora, an unremarkable girl from South Bend, Indiana, does a remarkable thing. At 13 she decides to apply to East Coast Prep schools and winds up spending an angst-ridden four years at Ault School just outside of Boston, Mass. ("How was I supposed to understand, when I applied at the age of thirteen, that you have your whole life to leave your family?") This is the story of EVERYTHING that goes on inside her head. The quote above is just one example. It's all about observation and laying bare the atmosphere that is Prep School as experienced by an outsider. And this outsider believed herself to be "a petty, angry, impotent person." Lee outlines her memories by grade level, (freshman, sophomore, junior, senior) and focuses on major and minor events shaping each year. The detail is

both exquisite and annoyingly sharp and pulls you into each scene as though it's happening in the now rather than some 20 years ago. It's personal and revealing and I can't imagine anyone who didn't experience at least some of the same thoughts during high school--no matter what school or what place. Freshman year it's all about roommates and assimilating to what is for Lee a foreign climate. It's also the year where she first develops a crush on a golden boy named Cross Sugarman. Other students, Dede and Martha, for example, use their time at Ault to get the education they were promised; however, Lee--an average to poor student--spends all her time fantasizing about Cross. As the years sail by, Lee learns to deal with all things associated with coming of age, except for what it truly means to fit in. Great storytelling, tremendous character development, extremely well written and I highly recommend this book. I have to say it reminded me a little bit of four years at Hogwarts, without the wizardry, of course, and a heroine who unlike Harry Potter, wasn't popular and had no self-confidence. Michele Cozzens is the author of It's Not Your Mother's Bridge Club

• As a senior in college, I found this book to be remarkably insightful and realistic. No, Lee is not the most sympathetic protagonist. In fact, she's downright selfish. Is that really so shocking? Sittenfeld manages to show that Lee, the underdog and the outsider, has the potential to be as mean-spirited as the popular Aspeth Montgomery. The book refuses to paint its characters in the stark black-and-white terms of bitchy elite versus sweet, brainy outsider, and that's one of the things I like about it. Sittenfeld is also successful in capturing the unpopular-girl ethos with its heavy burden of self-doubt as well as the importance high schoolers place on popularity. I would be lying if I said I didn't identify with Lee, not only in her lack of confidence but in her self-centeredness as well. The book doesn't leave you feeling as if justice has been served, because in the real world, it generally isn't. Like most outsiders, Lee doesn't really come out on top. The book does contain some rather sexually graphic scenes. However, I would still recommend it to high-school readers, most of whom will be unfazed by those sorts of references. The book dispels the popular high-school-girl notion that having a boy kiss you is going to fix your life. In fact, it reveals how horribly messy sexual relationships can be--something it's a lot easier to find out from a book than from real life. In general, I would recommend the book to anyone willing to stomach a less-than-ideal protagonist and a less-than-satisfying ending. I think Sittenfeld is brilliant. Props to her for writing a story that tries to tell the truth.
