REVIEW OF THE THIRD EYE LOIS DUNCAN

- Seymour Simon ROCKS. His science books stretch the vocabulary a little, they feature excellent photographs and illustrations, the text is always clear, and the books satisfy children's curiosity. We are Seymour Simon fans. "Space Travelers" is thrilling and engaging, lots of cool rocketry photographs, and a "what will people imagine next" philosophy. Nice job, Mr. Simon.

- It looks like a microfot brochure for the people who have no odea about Axapta. it is giving some basic knowledge for beginners.
