REVIEW OF LIBRI SCUOLA MEDIA DOWNLOAD

- Wait untill 5th edition comes out or try Linux Secrets by Barkakati.I am going to throw this book away and replace it with something else,it is not worth the space it wastes on the shelf!
- I am just about finished with my double Guillemot kayak from Nick's book. It will be a beautiful boat for me to use with my family on overnight and day trips on the Puget Sound.Nick's book was wonderful, and I highly recommend it for anyone who is building or thinking of building a kayak (or even a canoe). It is filled with a wealth of information about the techniques necessary to build kayaks from wood strips, but is easy enough to follow and is structured well so it all comes together without any confusion.I have been extremely pleased with the book, and I bet you will be too.
