REVIEW OF THE COMMANDERS HANDBOOK ON THE LAW OF NAVAL OPERATIONS

- The Hobbit, the prequel to the Lord of the Rings series, is a very well written book, but I recommend it only for those who are truly fans of fantasy books. Tolkein does a very well at describing the adventure of Bilbo and his companions, but sometimes he gets too descriptive and the book gets a little

dull. Still, other parts in the book are very exciting. I ended up enjoying this book very much, but I have read better books. Overall, I don't consider this one of Tolkein's best literary works, but it deserves some recognition.

- This is not a literary review, this is about the edition/printing only. This is a great paperback. I bought it because it was economical, but ended up enjoying it because it is of exceptional quality. This is NOT a mass-market, stiff as a board, tiny font, drug-store printing. This is a book with sturdy binding and thick matte paper with pleasantly large font type. While it doesn't lay flat on a table when open, it is very easy to hold open in one hand. I love hardbacks, but this paperback was a purchase I do not regret. GREAT BOOK, MEMORABLE JOURNEY WITH UNIQUE CHARACTERS, AND A TOTALLY RECOMMENDED EDITION.
