The Amaryllidaceae family is mainly distributed in warm temperate and tropical parts of the world and has approximately 75 general and 1,600 species. This field guide follows hot on the heels of The Amaryllidaceae of Southern Africa (published in 2016), and the addition of 560 photographs and several new paintings in Field Guide to the

Amaryllis Family of Southern Africa & Surrounding Territories makes for an even more effective guide for identification in the field. In this Field Guide to the Amaryllis Family of Southern Africa & Surrounding Territories author Graham Duncan provides a botanical description for each species. Along with synonyms, brief history, flowering period, similar species, life cycle, distribution, habitat, medicinal/poisonous properties, pollination, cultivation, and conservation status. Maps accompany the text, along with colour photographs and botanical paintings.

This superb field guide will be treasured for years to come.

Have You Seen Zandile? is a wonderful South African resource, still as fresh and absorbing as when it was first written. Perfectly scripted, and with Gcina Mhlophe's sure instinct for stagecraft, it recounts the very personal story of Zandile, who is snatched away from her grandmother's loving care and taken to live with her matriarchal family in rural Transkei. Moving, funny and convincing, full of Zandile's shrewd, youthful insights, the play offers an illuminating window into the 1960s world that it depicts, with its issues of white

dominance, rural hardship and black female repression. Have You Seen Zandile? is already an established favorite in performance circles, and is fast becoming a South African classic.

The Permanent Instruction of the Alta Vendita is a document, originally published in Italian in the 19th century, purportedly produced by the highest lodge of the Italian Carbonari and written by "Piccolo Tigre," codename for Giuseppe Mazzini. The document details an alleged Masonic plan to infiltrate the Catholic Church and spread liberal ideas within it. The Carbonari had

strong similarities to Freemasonry and so the document is seen by some as a Masonic document. In the 19th century, Pope Pius IX[3] and Pope Leo XIII both asked for it to be published.

For generations, the women of the Ndebele of southern Africa have produced an art of remarkable richness and vitality. In their ceremonial beadwork and in large murals that cover the exterior walls of their mud dwellings, these women have created designs that are at once ancient and modern in their simplicity, bright colours and abstract patterns.

Dr. Bill Winston, broadcast nationwide in over 100 million homes on the Believer

s Walk of Faith program, helps believers renovate their thought life by focusing on who they are in Christ, building success in every area of living. In the book of Romans, the apostle Paul encourages believers to be transformed by renewing their mind. The Greek word for transformed is "metamorphosis"; or "to change." Dr. Winston reveals that believers must believe what God says about them and their situations, more than what their circumstances say. They must build a new way of thinking. Dr. Winston encourages that God's Word takes a higher place than their current situations. God promises an abundant life, not a

barely-get-through-it life, but that is where many believers have been living. Readers will begin to discover God's promises and find ways to renew their minds through study and meditation, giving them the inner strength to overcome adversity and find success in every area.

Amapopeye . . . What is the power of a single word? Six days a week, advertising creative Melusi Tshabalala posts a Zulu word on his Everyday Zulu

Facebook page and tells a story about it. His off-beat sense of humour, razor-sharp social observations and frank political commentary not only teaches his followers isiZulu but also offer insight into the world Melusi inhabits as a 21st century Zulu man. Over the past few months he has built up a big and a loyal following that include radio host Jenny Crwys-Williams and Afrikaans author Marita van der Vyfer. He pokes fun at our differences and makes us laugh at ourselves and each other. Melusi asks critical questions of everyone, from Auntie Helen, Dudu-Zille to Silili (Cyril Ramaphosa) and even Woolworths (why are their aircons always set on 'jou moer'?) His fans love

him for his honesty and commitment to pointing out subtle and overt forms of prejudice and racism. Melusi's *Everyday Zulu* holds up a mirror that shows South African society in all its flaws and its sheer humanity. Most importantly, he shows the power of words and that there's um'zulu in all of us!

Ukufa kukaShaka is a historical drama by Elliot Zondi, first published in 1960 in the Bantu (later, African) Treasury Series by the University of the Witwatersrand Press. Its plot is based on the events surrounding the assassination of Shaka, the mighty Zulu king, by his two half-brothers, Dingane and

Mhlangana, aided and abetted by his paternal aunt, Mkabayi, in 1828. The play explores the classic theme of the tragic hero's fatal flaws: hubris and overconfidence.

Shaka's ruthless ambition led him to overstep human boundaries, kill with impunity, bar his warriors from having families and force them into endless wars. His blind spot seems to have been to put the survival and expansion of the Zulu kingdom first and the welfare of his subjects second. Against this backdrop Mkabayi, whose ambitions for a remarkable Zulu nation were more tempered, played a decisive role in his downfall. Zondi explores arguments both in favor of and against Shaka's

assassination in a way that allows the reader to sympathize with his greater vision and his thwarted plan to fight impending colonialism. His dramatization of the conflict between Shaka and Mkabayi highlights questions of leadership and nation-building that continue to be relevant today.

The Digital Memory Toolkit aims to address a lack of digital literacy in community memory projects by giving project teams the insight and tools necessary to undertake digital memory projects. Projects of this nature commonly have twofold relevance - helping to preserve local knowledge and also empowering community members

through skills training and engagement. This digital toolkit therefore takes the form of an introductory training manual that serves as a knowledge resource, providing information on how to set up a digital memory project, including sections on project planning and management, which software to use, training, oral history methodology and digital resource management. The sections in this toolkit provide information for African NGOs, libraries, archives, museums and schools to initiate and run their own digital memory projects, using free, open-source technology and community volunteers.

REVIEW OF IMITHI YESINTU

- Jorge has done it again! He's produced the best grow book on the market. This one beats the others, hands down. With great features like 1100+ COLOR PHOTOS and illustrations, in-depth troubleshooting tips and color coded chapters, it's easy to figure out what's going on with your plants. Marijuana Horticulture is written by the leading authority on growing. Jorge has been in the business for thirty years and writes the Jorge's Rx column for High Times and articles for a dozen other cannabis magazines. He has visited hundreds of growrooms and compiled the best

techniques from 300 expert growers around the world for this book. Thanks to 512 FULL COLOR pages and an excellent design, the book is easy to navigate. Completely rewritten and updated with new sections on things like growing outdoors, greenhouses, cloning and making bubble hash, Jorge leaves no leaf unturned! Jorge researches the latest trends in growing and always emphasizes maximizing yields. With detailed drawings, charts, graphs and tables, you can easily determine what setup will work best in your space. Whether you're a novice or expert, this book is the REAL BIBLE. Beware of imitations and copies. Jorge's books have been translated into

Dutch, English, French, German, Spanish, Italian, Japanese, and Russian. Since 1983, Jorge has sold half a million copies of his grow books!

- Yes, it's only February, but the odds that someone will write a book more important than this one anytime in the near future are pretty low. Those who dismiss Diamond as a "determinist" ignore the whole point of this book: Societies don't fail or succeed based on their surroundings. They fail or succeed based on how they interact with those surroundings. Societies that adapt their values and practices to match what their environment can provide to them on a sustainable basis thrive; those that persist in practices that deplete their resources

ultimately fail. He backs this notion up with examples from the past and present that are both fascinating and compelling. But Diamond's remarkable insight is this: For the first time in human history, we have the ability to see our resource use--and depletion--on a global scale, and to recognize how our actions impact others and how their actions impact us. We can harness this new knowledge to sustain our planet, or we can continue on a path that leads nowhere but ruin. Some may not like that message, but Diamond is both honest about how he arrives at his conclusions and optimistic that humanity can solve its problems. It's not overstating the case to say that the higher the number of people who read this well-researched and well-reasoned book, the more warranted Diamond's optimism will be. If you've got the time, read *Guns, Germs and Steel* first; these two work best together.
