REVIEW OF AUTOMATION MADE EASY EVERYTHING YOU WANTED TO KNOW ABOUT AUTOMATION AND NEED TO ASK

- This is the best science fiction story ever written. In1949, Orwell made his statement about dictatorialgovernments by writing a tale in which the entire worldwas dominated by three dictatorial supercountries, obviouslybased on the Russian communists of the time. In his story,a man from the nation of Oceania dares to secretly hate thecountries figurehead leader, Big Brother. He must hide fromthe Thought Police and his more loyal comrades to join therevolutionary party, the Brotherhood, before he isdiscovered and tortured in the Ministry of Love, thenation's hypocritical law wnfocement. This book is a mustfor every fan of Brave New World or Animal farm, or any book of the like.

- When I was a kid I read 1984, it changed the way I view everything, I can see that we are starting to look like the guys in the book did, the theme is now a classic, I can only say I like it very much
