And if you ever require help locating the excellent book, our knowledgeable team is below to give personalized recommendations.

REVIEW OF HAYNES SATURN MANUAL PDF

- This was my second Julie Garwood book, my first being Honor's Splendour-which I definitely recommend! This book wasn't as good as HS. For one, the hero and the heroine don't even meet till page 125. I like my romances to start off at the beginning even though this is a long book, it doesn't make up for it! Also, Brodick doesn't change at all, he always remains the domineering egotistical one who always gets what he wants. He does want Gillian to be happy though, even though if she does get her own way, the reader knows that he would be miserable. I also wish that Gillian and Brodick had more time to talk and had more witty banter with each other, but Gillian is off making friends with Bridgid and Brodick is busy doing something or other. I thought it was sweet that Brodick liked Gillian because she was a strong woman and that she could stand up to him and so forth, **SPOILER** but I felt like he was taking advantage of her by marrying her when she didn't even know it, what is up with that! What happened to that little boy Alec anyway? I guess Gillian didn't care about him at all once he returned to his parents, maybe he was just a way for Brodick and Gillian to meet. I also don't understand how when they only knew each other for such a short time, they were already going to get married. There are also good points to the book though, Gillian and Brodick do have some witty banter and they do have good sexual tension. Brodick does do some stupid things though later on, which are annoying, he even admits to using her later on, but he says that is only because he wanted to protect her. The book is fluffy in a way, but there is a story line about a jeweled chest that Gillian needs to find

to save her uncle. I guess this book didn't appeal to me that much because the hero was not tender and gentle and romantic with the heroine and that is what I like.

- This is a sci-fi novel about the end of the world. Every single adult on the planet died. There are a couple of kids living in a house alone. So begins the Fire-Us trilogy, fascinating, scary, and intriguing. The story is really interesting - I mean slap in your face, give-me-more, I LOVE THIS interesting. A couple of the images were really disturbing, though, like the fact that Hunter had to move the skeletons out of his way at the supermarket. The kids in the story are fascinating, and the Teacher's scarpbook-thing was

so . . . wierd that it was actually kind of scary. Then Angerman is introduced. He's really messed up, but I get the idea that he knows something about the virus (Fire-us) that the others don't. This makes him an amazing character, and even if you don't like the story its worth reading the sequel just to find out what happens to him and his battered dummy. I really love this series, though some of the descriptions might be a little too much for younger readers. Well worth anyone who is into sci-fi and apocalypse, as I was at the time. P.S. I read this book five months ago and I still remember all of the characters and their names and quirks. Talk about powerful writing!
