REVIEW OF RABIA BASRI THE MYSTIC AND HER FELLOW SAINTS IN ISLAM BEING THE LIFE AND **TEACHINGS OF RABIA AL**

- This book is a good reference but not for those who are not proficient already in MAX. As others have stated, the examples often skip steps, assume knowledge of the workings of the program and show "this is what you should end up with" pictures that don't relate at all to what the instructions give. I get the impression also that each chapter was written by a different person because they cover material that has sometimes been discussed or later chapters cover basic material that was left out at the beginning. If you are beginner, don't buy this.
- I haven't finished this book yet, but it's a Robert Jordan and all his books are great, so this one must be too. It's great on Kindle cause I get it on my e-reader, but also on my Andriod phone, and on my computer. I've never without access to this book.
