REVIEW OF A LONG WALK TO WATER READERS GUIDE

- D. James Tindell's book is a worthy first novel which takes a look into the not so distant future and involves the reader in a fast-paced, complex story of romance, science, ethics, and metaphysics. The characters are well drawn and you cannot help but put yourself in the positions of the two main characters, the man who goes to any measure to save the life of his true love and the woman he saves but who ends up awakening in a world where everything she knows is gone or has changed.

- Although not commonly heard of nowadays (in the English speaking world at least) Georges Simenon was a very prolific writer of the detective genre, most famous for his Maigret series (with well over a hundred books stretching from 1931 all the way to 1972!!). Maigret is basically a French response to detectives like Sherlock Holmes. Not as interested in physical evidence and the rational, he seeks to understand the characters behind the cases and their often tragic lives. Maigret has an aspect of humanism and warmth throughout the books, especially for those less fortunate in French society. His cases present an element of uncertainty that is natural when dealing with people and are thus much more realistic than Sherlock Holmes type stories (although less satisfying "logically"). In this particular book Maigret

investigates what others would probably have dismissed as a nothing case. The attempted murder of a vagrant fails as he is fished out of the river. Who would want to kill a homeless man and who cares anyway? But contrary to this common attitude of his environment, Maigret treats this case as one of primary

importance. We see Maigret's warmth and humanity as he uncovers the life of Tubib, his family that he left and the circumstances that led to this seemingly petty case. The Maigret novels may not be profound literature but they are extremely well written, compassionate and involving detective stories.
