## **REVIEW OF RENAULT TRAFIC ENGINE SPECIFICATIONS**

- This book is lacking some vital essence. Maybe that was the author's point. I don't go into a book with the expectation that I will bond with the characters, but I do need a reason to finish reading it. (In this case, the reason was pure, dogged cussedness on my part.) While MuCullers gives us page after page of rich

detail about her characters' thoughts, lives, and surroundings, she never pulls back to let us see the big picture of why we should care. Just about anything by Steinbeck is better than this book.

- This book was genius. Only a true genius herself could write such a powerful story about just a random points in these peoples lives. Truly a must.
